Presenting the views of leading experts on strategic considerations in Eurasia, this volume shows that the 11 September attacks and subsequent developments have affected the way in which international relations are evaluated. In addition, these developments have turned the concept of asymmetric threats, including large-scale international terrorist attacks, into genuine realistic dangers threatening our security. As a result, the conventional mindset over issues of war and peace, of existing alliances and partnerships, even of the character of the international system has to be re-evaluated. This volume sheds light on the aspects of change that have taken place in the post-11 September evolution of international relations in Eurasia.

This open access book provides the first comprehensive collection of papers that provide an integrative view on cybersecurity. It discusses theories, problems and solutions on the relevant ethical issues involved. This work is sorely needed in a world where cybersecurity has become indispensable to protect trust and confidence in the digital infrastructure whilst respecting fundamental values like equality, fairness, freedom, or privacy. The book has a strong practical focus as it includes case studies outlining ethical issues in cybersecurity and presenting guidelines and other measures to tackle those issues. It is thus not only relevant for academics but also for practitioners in cybersecurity such as providers of security software, governmental CERTs or Chief Security Officers in companies.

A masterclass in media studies from the creator of Grange Hill, Brookside and Hollyoaks. Described in Parliament as 'excellent' by Ed Vaizey, The Parliamentary Under-Secretary of State for Culture, Media and Sport GRANGE HILL Swimming pool disasters. Drugs, and just say 'no'. Flying sausages. School like you'd never seen it before. BROOKSIDE Lesbian kisses. Bodies under patios. Exploding shops. Suburban life like you'd never seen it before. HOLLYOAKS Bad boys on bikes. Loveable geeks. Leggy blondes. Students like you'd never seen them before. PHIL REDMOND Three classic TV programmes. One TV genius. This is the behind-the-scenes story of how a working-class lad from the Liverpool suburbs went from living on a housing estate to buying one, and from comprehensive school dinners to lunch with the Queen. Along the way he learned a lot of lessons, broke all the rules, and changed television for ever.

structured as a UNDP project with the IMF as Executing Agency and with a Steering Committee empowered to give strategic guidance to the program and select its senior staff from short lists provided by the IMF. With the spread of the RTAC modality, the IMF has sought to bring the Centers' activities within the ambit of overall resource planning for technical assistance, ensure consistency with the institution's view on priorities for technical assistance in the countries concerned, and tighten quality control through backstopping. This has created the potential for conflict with the relative independence that CARTAC has enjoyed from its inception. The conclusion in this report, however, is that alignment with the IMF does not necessarily undermine country ownership and that the Steering Committee can play a pivotal role in defusing any tension that may arise.

Grand strategy integrates military, political, and economic means to pursue states ultimate objectives in the international system. American grand strategy had been in a state of ux prior to 2001, as containment of the Soviet Union gave way to a wider range of apparently lesser challenges. The 9/11 attacks on the Pentagon and the World Trade towers, however, transformed the grand strategy debate and led to a sweeping reevaluation of American security policy. It may still be too early to expect this reevaluation to have produced a complete or nal response to 9/11 policies as complex as national grand strategy do not change overnight. But after 3 years of sustained debate and adaptation, it is reasonable to ask what this process has produced so far, and how well the results to date serve American interests.
