academic and industrial sectors, in order to present state-of-the-art DSS research and developments, to discuss current challenges that surround decision-making processes, to exchange ideas about realistic and innovative solutions, and to co-develop potential business opportunities. The main topic of this year's conference was "Data, Information and Knowledge Visualization in Decision Making". The 13 papers presented in this volume were carefully reviewed and selected from 53 submissions. They were organized in topical sections named: visualization case studies; visualization perspectives; analytics and decision; and Multi-Criteria Decision Making. Based on literature in corporate responsibility and formal leadership systems Erik G. Hansen develops a conceptual "Responsible Leadership Systems Framework" structuring leadership instruments and tools into seven interconnected key areas. The framework is applied in qualitative multi-case studies in seven of the largest German stock corporations.
