(www.canammissing.com) People have been disappearing under mysterious circumstances for centuries. During the last 150 years the media has covered many of these cases and has attempted to put a rational spin on a very unusual event. After 3+ years and 7000 hours of intensive research there is a new paradigm being presented on people missing in the wilds of North America. "Missing 411" identifies 28 clusters of missing people who have vanished in remote areas of the continent. The finding is a troubling fact questioning why and how these people have disappeared. Some of the victims are found and tell a very interesting and mind bending story of their experience, others are never found, a fact that confounds searchers and law enforcement. There are many children that have disappeared under highly unusual circumstances. After weeks of searching and failing to find any evidence of the child being in a remote location, many parents and law enforcement draw the conclusion that the victim was kidnapped, yes, taken by someone lurking in remote areas of our national parks, forests, farms and even ranches. There are two editions of this research, "Missing 411-Eastern United States" and "Missing 411-Western United States." The eastern United States copy has a list of every person who is listed in each book as well as a final conclusion to the investigation. You will be shocked by the lack of interest and documentation that many of our governmental bodies have committed to missing people. After reading these books you will never look at our wildlands the same. Chapters; 1. Introduction 1A. Clusters 1B. Unique Factors in Disappearances 2. Missing People 3. Index "Major news organizations do a deplorable job of covering major stories and issues which are deemed too unusual or too far outside the box. Chances are, they will find a way to trivialize or ignore the disturbing evidence accumulated by David Paulides, a former law man turned investigative journalist. The paper trail uncovered by Paulides through sheer doggedness is impressive, the evidence indisputable. People are vanishing without a trace from our national parks and forests, yet government agencies are saying nothing. At a minimum, this story deserves space on the front page of every newspaper in the country, and it warrants a formal high level inquiry by the federal agencies whose files leave little doubt that something very strange is unfolding in our wilderness." Een aan lager wal geraakte Engelsman van middelbare leeftijd gaat op onderzoek uit als enkele ex-collega's, allen briljante wetenschappers, vermoord zijn.

For readers of Jon Krakauer and Douglas Preston, the critically acclaimed author and journalist Jon Billman's fascinating, in-depth look at people who vanish in the wilderness without a trace and those eccentric, determined characters who try to find them. These are the stories that defy conventional logic. The proverbial vanished without a trace incidences, which happen a lot more (and a lot closer to your backyard) than almost anyone thinks. These are the missing whose situations are the hardest on loved ones left behind. The cases that are an embarrassment for park superintendents, rangers and law enforcement charged with Search & Rescue. The ones that baffle the volunteers who comb the mountains, woods and badlands. The stories that should give you pause every time you venture outdoors. Through Jacob Gray's disappearance in Olympic National Park, and his father Randy Gray who left his life to search for him, we will learn about what happens when someone goes missing. Braided around the core will be the stories of the characters who fill the vacuum created by a vanished human being. We'll meet eccentric bloodhound-handler Duff and R.C., his flagship purebred, who began trailing with the family dog after his brother vanished in the San Gabriel Mountains. And there's Michael Neiger North America's foremost backcountry Search & Rescue expert and self-described "bushman" obsessed with missing persons. And top researcher of persons missing on public wildlands Ex-San Jose, California detective David Paulides who is also one of the world's foremost Bigfoot researchers. It's a tricky thing to write about missing persons because the story is the absence of someone. A void. The person at the heart of the story is thinner than a smoke ring, invisible as someone else's memory. The bones you dig up are most often metaphorical. While much of the book will embrace memory and faulty memory--history--The Cold Vanish is at its core a story of now and tomorrow. Someone will vanish in the wild tomorrow. These are the people who will go looking.

If you liked Virtual Earth Graduate, you'll love this one. This book picks up where John Keel and Charles Fort left off.. with answers. In addition, it features the research of a modern-day investigator David Paulides into the issue of Disappearing People -- his outstanding series is called Missing 411. Thousands of people are disappearing every year and now we can partially understand it. There are cloaked predators out there, and several videos are examined that deal with the issue. In addition, we are developing our own version of cloaking (chapter 6). While the book also deals with Evolution vs Creation and Science vs Religion and even includes the Dan Brown treatment of same in his latest book, Origin, there is a lot of emphasis on the Anunnaki, Skygods, Astral Spooks and even the Djinn. Also covered are the Black-eyed Kids, Shadow People, and odd anomalies around the planet. All in all the book is mainly about anomalies (human, astral, and physical vs paranormal) but is dedicated to the late John Keel whose outstanding book, Disneyland of the Gods, is echoed in this book. Earth is not quite what we think it is, and it is not our home. Thus with Custodians running around cloaked, disappearing people, we need to think twice about Earth being our home -- it isn't. And in order to get out of here, Chapters 9-10 offer insights to further one's personal growth -- which is also a

Welkom in mama's wereld... Zoon Peter is vastgegroeid aan zijn iPad, dochter Jane heeft maar één droom - rijk worden van een carrière als Instagram-influencer -, en vader is voortdurend op pad voor exotische zakenreisjes. Mama's huwelijk staat onder druk, haar kinderen trekken zich nergens wat van aan en het huis wordt een steeds groter schimmelnest. Alleen Judy, de trotse en nobele terriër, blijft trouw als altijd. Mama is bovendien een nieuwe uitdaging aangegaan: werken voor een hippe, nieuwe techstart-up. Haar angst of ze zich, als tweeënveertigjarige, met een beetje waardigheid uit een zitzak zal weten te hijsen is nog niet eens het ergst: op de een of andere manier heeft ze zich ook nog (per ongeluk) voorgesteld als een single feestbeest en agendahedonist. En dus niet als iemand die halsoverkop naar huis moet rennen als de oppas ziek is. Lukt het mama de schijn op te houden zonder het gezin te laten vallen? Zal ze daadwerkelijk weg kunnen komen met het dragen van een hippe trainingsbroek naar haar werk? En, nog belangrijker, zal ze tijd kunnen vinden om zichzelf te trakteren op een grote gin-tonic? Hoogstwaarf*ckingschijnlijk niet. Gill Sims (1978) is auteur en illustrator. Haar eerste boek, *Waarom mama drinkt*, was in Engeland een van de bestverkochte boeken van 2017. *Waarom mama vloekt* is zo mogelijk een nog groter succes, en stond zeven weken op 1 in de bestsellerlijsten. Gill Sims woont in Schotland met haar man, twee kinderen en een recalcitrante borderterriër, die heerst over het huis als een keizer. 'Oprecht en erg grappig _ een verhaal waarmee veel moeders zich zullen kunnen identificeren.' THE SUN 'Sims' laatste werk is het hilarisch vervolg op haar eerste bestseller. Het zij je vergeven als je mocht je denken dat de blogster achter Peter en Jane het niet twee keer zou kunnen flikken _ maar dat heeft ze! THE SUNDAY POST

This astounding work brings professional investigative abilities and forensic artistry to the field of Bigfoot studies. This astounding work brings professional investigative abilities and forensic artistry to the field of Bigfoot studies. David Paulides, a former police investigator, has applied his skills to questioning Bigfoot witnesses. The results he has achieved in gaining access to witnesses and getting detailed information from them is both remarkable and intriguing. Furthermore, he commissioned a forensic police artist to meet with witnesses and sketch the creatures they saw. These drawings provide insights into the creature's nature never before realized. The result of this team's work is by far one of the most convincing accounts ever written on Bigfoot. The conclusion reached - that this creature, long revered by the Hoopa people, definitely inhabits the forested regions of Humboldt County in Northern California - is so convincing that those people who doubt Bigfoot's existence will be forced to think again! During a time of crisis, we are presented with something of a fork in the road; either look within and examine ourselves, or engage in distractions and go further to sleep. This book is for those seeking deeper self-understanding, and offers several avenues for doing so, all of which are connected to the theme of going within. This a time of opportunity for men and women interested in deepening their inner work via tools such as meditation, shadow work, conscious relating, dream work, and other activities.
