In close collaboration with the late Matthew Lipman, Ann Margaret Sharp pioneered the theory and practice of 'the community of philosophical inquiry' (CPI) as a way of practicing 'Philosophy for Children' and prepared thousands of philosophers and teachers throughout the world in this practice. In *Community of Inquiry* with Ann Margaret Sharp represents a long-awaited and much-needed anthology of Sharp's insightful and influential scholarship, bringing her enduring legacy to new generations of academics, postgraduate students and researchers in the fields of education, philosophy, philosophy of education, Philosophy for Children and philosophy of childhood. Sharp developed a unique perspective on the interdependence of education, philosophy, personhood and community that remains influential in many parts of the world. This perspective was shaped not only by Sharp's work in philosophy and education, but also by her avid studies in literature, feminism, aesthetic theory and ecumenical spirituality. Containing valuable contributions from senior figures in the fields in which Sharp produced her most focused scholarship, the chapters in this book present a critical overview of how Sharp's ideas relate to education, philosophy of education, and the Philosophy for Children movement as a whole. The historical and philosophical nature of this collection means that it will be a vital resource for philosophers and educators. It should also be of great interest to teacher educators and those involved in the study of pragmatism and feminism, as well as the history of education across the globe, particularly in the United States of America.

Although he is not always recognized as such, Soren Kierkegaard has been an important ally for Catholic theologians in the early twentieth century. Moreover, understanding this relationship and its origins offers valuable resources and insights to contemporary Catholic theology. Of course, there are some negative preconceptions to overcome. Historically, some Catholic readers have been suspicious of Kierkegaard, viewing him as an irrational Protestant irreconcilably at odds with Catholic thought. Nevertheless, the favorable mention of Kierkegaard in John Paul II's *Fides et Ratio* is an indication that Kierkegaard's writings are not so easily dismissed. Catholic Theology after Kierkegaard investigates the writings of emblematic Catholic thinkers in the twentieth century to assess their substantial engagement with Kierkegaard's writings. Joshua Furnal argues that Kierkegaard's writings have stimulated reform and renewal in twentieth-century Catholic theology, and should continue to do so today. To demonstrate Kierkegaard's relevance in pre-conciliar Catholic theology, Furnal examines the wider evidence of a Catholic reception of Kierkegaard in the early twentieth century--looking specifically at influential figures like Theodor Haecker, Romano Guardini, Erich Przywara, and other Roman Catholic thinkers that are typically associated with the *ressourcement* movement. In particular, Furnal focuses upon the writings of Henri de Lubac, Hans Urs von Balthasar, and the Italian Thomist, Cornelio Fabro as representative entry points.

and Afterword examine the ways in which philosophy and literature depend on each other and interact, while also contrasting with each other in that they necessarily exclude or incorporate each other. This book establishes an enduring framework for structuring the broad themes defining the relations between philosophy and literature and organising the main topics in the field. Key Features • Structured in five parts addressing philosophy as literature, philosophy of literature, philosophical aesthetics, literary criticism and theory, and main areas of work within philosophy and literature • An Introduction setting out the main concerns of the field through discussion of the major themes along with the individual topics • An Afterword looking at the interactions between philosophy and literature through itself enacting philosophical and literary writing while examining the question of how they can be brought together The Palgrave Handbook of Philosophy and Literature is an essential resource for scholars, researchers and advanced students in philosophy of literature, philosophy as literature, literary theory, literature as philosophy, and the philosophical aesthetics of literature. It is an ideal volume for researchers, advanced students and scholars in philosophy, literary studies, philosophy and literature, cultural studies, classical studies and other related fields.

The very idea of humanity seems to be in crisis. Born in the ashes of devastation after the slaughter of millions, the liberal conception of humanity imagined a suffering victim in need of

salvation. Today, this figure appears less and less capable of galvanizing the political imagination. But without it, how are we to respond to the inhumane violence that overwhelms our political and philosophical registers? How can we make sense of the violence that was carried out in the name of humanism? And how can we develop more ethical relations without becoming parasitic on the pain of others? Through a critical exploration of violence and the sacred, *Ecce Humanitas* recasts the fall of liberal humanism. Brad Evans offers a rich analysis of the changing nature of sacrificial violence, from its theological origins to the exhaustion of the victim in the contemporary world. He critiques the aestheticization that turns victims into sacred objects, sacrificial figures that demand response, perpetuating a cycle of violence that is seen as natural and inevitable. In novel readings of classic and contemporary works, Evans traces the sacralization of violence as well as art's potential to incite resistance. Countering the continued annihilation of life, *Ecce Humanitas* calls for liberating the political imagination from the scene of sacrifice. A new aesthetics provides a form of transgressive witnessing that challenges the ubiquity of violence and allows us to go beyond humanism to imagine a truly liberated humanity.

Anticorruption in History is a timely and urgent book: corruption is widely seen today as a major problem we face as a global society, undermining trust in government and financial institutions, economic efficiency, the principle of equality before the law and human wellbeing in general. Corruption, in short, is a major hurdle on the "path to Denmark" a feted blueprint for stable and successful statebuilding. The resonance of this view explains why efforts to promote anticorruption policies have proliferated in recent years. But while the subject of corruption and anticorruption has captured the attention of politicians, scholars, NGOs and the global media,

Download File PDF Humanitas 2006 Vol 1 Il Settantunesimo Senso Omaggio A Paolo De Benedetti

scant attention has been paid to the link between corruption and the change of anticorruption policies over time and place, with the attendant diversity in how to define, identify and address corruption. Economists, political scientists and policy-makers in particular have been generally content with tracing the differences between low-corruption and high-corruption countries in the present and enshrining them in all manner of rankings and indices. The long-term trends—social, political, economic, cultural—potentially undergirding the position of various countries plays a very small role. Such a historical approach could help explain major moments of change in the past as well as reasons for the success and failure of specific anticorruption policies and their relation to a country's image (of itself or as construed from outside) as being more or less corrupt. It is precisely this scholarly lacuna that the present volume intends to begin to fill. The book addresses a wide range of historical contexts: Ancient Greece and Rome, Medieval Eurasia, Italy, France, Great Britain and Portugal as well as studies on anticorruption in the Early Modern and Modern era in Romania, the Ottoman Empire, the Netherlands, Germany, Denmark, Sweden and the former German Democratic Republic. This book approaches the field of built heritage and its practices by employing the concept of heterotopia, established by the French philosopher Michel Foucault. The fundamental understandings of heritage, its evolution and practices all reveal intrinsic heterotopic features (the mirror function, its utopic drive, and its enclave-like nature). The book draws on previous interpretations of heterotopia and argues for a reading of heritage as heterotopia, considering various heritage mechanisms – heritage selection, conservation and protection practices, and heritage as mnemonic device – in this regard. Reworking the six heterotopic principles, an analysis grid is designed and applied to various built heritage spaces (vernacular, religious

architecture, urban 19th century ensembles). Guided through this theoretical itinerary, the reader will rediscover the heterotopic lens as a minor, yet promising, Foucauldian device that allows for a better understanding of heritage and its everyday practices.

This book is the Second in the Genesis series. It is a resource for biblical students, history buffs or those who like to read. In this single volume grouped together is a Interlinear [Hebrew accompanied by an English equivalent], a translation with notes on the discussion of each verse, and ancient related texts from Egyptian, Sumerian, Akkadian, Chaldean, Ugaritic, Greek and other biblical verses that related to the chapters 4-10 of Genesis. It was our hope to introduce the world, text and discussion on Genesis chapters four through ten to any reader. We have taken into consideration Jewish, Christians and Secular Scholarship in this production. We address issues of the valuing Genesis, life out of the Garden of Eden, genealogies, the table of nations, and Noah's flood.

This volume explores the historical novel Quo vadis written by the Polish author Henryk Sienkiewicz, examining how Sienkiewicz recreated Neronian Rome so vividly and the reasons why his novel was so avidly consumed and reproduced in new editions, translations, visual illustrations, and adaptations to the stage and screen.

Questo volume raccoglie gli atti del convegno, svoltosi a Perugia il 6 ottobre 2007, organizzato dall'Antico e Primitivo Rito di Memphis e Misraim (Grande Oriente d'Italia) e dall'Accademia Nazionale dei Filaleti in occasione della ricorrenza del centenario

della nascita di Mircea Eliade, il celebre scrittore, storico e antropologo rumeno. Il convegno ha inteso non solo rendere gli onori magistrali a questo misconosciuto maestro del pensiero spirituale laico moderno, ma ha anche offerto spunti di riflessione sulle ardite intuizioni di Eliade riguardanti la trasformazione delle forme del sacro, a partire dalle culture primitive per giungere a quelle cosiddette progredite, e, soprattutto, sulla strategicità delle sue illuminanti e geniali idee, nella prospettiva dell'avvento di una auspicabile e rinnovata "scienza del sacro". Con un atteggiamento correttamente obiettivo, l'opera di M. Eliade, può oggi, ormai molto a posteriori, essere ripresa, dal dimenticatoio nel quale è stata per molto tempo, ed essere rivalutata per spiegare anche il grande vuoto spirituale e la profonda crisi di identità di cui è malato l'uomo moderno o, per meglio dire, post moderno.

This book explores the relationships between ancient Roman and Confucian thought, paying particular attention to their relevance for the contemporary world. More than 10 scholars from all around the world offer thereby a reference work for the comparative research between Roman (and early Greek) and Eastern thought, setting new trends in the panorama of Classical and Comparative Studies.

Byzantine poetry of the eleventh century is fascinating, yet underexplored terrain. It presents a lively view on contemporary society, is often permeated with wit and elegance, and is concerned with a wide variety of subjects. Only now are we beginning to perceive the possibilities that this poetry offers for our knowledge of Byzantine

culture in general, for the intellectual history of Byzantium, and for the evolution of poetry itself. It is, moreover, sometimes in the most neglected texts that the most fascinating discoveries can be made. This book, the first collaborative book-length study on the topic, takes an important step to fill this gap. It brings together specialists of the period who delve into this poetry with different but complementary objectives in mind, covering the links between art and text, linguistic evolutions, social functionality, contemporary reading attitudes, and the like. The authors aim to give the production of 11th-century verse a place in the Byzantine genre system and in the historic evolution of Byzantine poetry and metrics. As a result, this book will, to use the expression of two important poets of the period, "offer a small taste" of what can be gained from the serious study of this period.

The long tradition of Kierkegaard studies has made it impossible for individual scholars to have a complete overview of the vast field of Kierkegaard research. The large and ever increasing number of publications on Kierkegaard in the languages of the world can be simply bewildering even for experienced scholars. The present work constitutes a systematic bibliography which aims to help students and researchers navigate the seemingly endless mass of publications. The volume is divided into two large sections. Part I, which covers Tomes I-V, is dedicated to individual bibliographies organized

according to specific language. This includes extensive bibliographies of works on Kierkegaard in some 41 different languages. Part II, which covers Tomes VI-VII, is dedicated to shorter, individual bibliographies organized according to specific figures who are in some way relevant for Kierkegaard. The goal has been to create the most exhaustive bibliography of Kierkegaard literature possible, and thus the bibliography is not limited to any specific time period but instead spans the entire history of Kierkegaard studies.

«Che cosa posso trasmettere di tutto questo a figli, nipoti, amici e allievi?». È una domanda che Amos si pone in questo libro, degno di rientrare a pieno titolo nella letteratura nota come She'elot u-teshuvot («Domande e risposte»), nota anche come... This book reflects the wide range of current scholarship on Roman law. The essays, newly commissioned for this volume, cover the sources of evidence for classical Roman law, the elements of private law, as well as criminal and public law, and the second life of Roman law in Byzantium, in civil and canon law, and in political discourse from AD 1100 to the present. Roman law nowadays is studied in many different ways, which is reflected in the diversity of approaches in the essays. Some focus on how the law evolved in ancient Rome, others on its place in the daily life of the Roman citizen, still others on how Roman legal concepts and doctrines have been deployed through the ages. All of them are responses to one and the same thing: the sheer intellectual vitality of Roman law, which has secured its place as a central element in the

intellectual tradition and history of the West.

The notion of 'the human' is in need of urgent redefinition. At a time of radical biotechnological developments, and in light of the political and environmental imperatives of our age, the term 'posthuman' provides an alternative. The philosophical landscape which has developed as a response to the crisis of the human, includes several movements, such as: Posthumanism, Transhumanism, Antihumanism and Object Oriented Ontology. This book explains the similarities and differences between these currents and offers a detailed examination of a number of topics that fall under the "posthuman" umbrella, including the anthropocene, artificial intelligence and the deconstruction of the human. Francesca Ferrando affords particular focus to Philosophical Posthumanism, defined as a philosophy of mediation which addresses the meaning of humanity not in separation, but in relation to technology and ecology. The posthuman shift thus emerges in the global call for social change, responsible science and multispecies coexistence.

This bibliography on Sren Kierkegaard carries on the work of Jens Himmelstrup's international bibliography (1962). It collates everything written about Kierkegaard - books, contributions to edited collections, and journals - and also features an appendix of primary text editions and translations. Discussion notes, reviews, etc., are catalogued according to the items they refer to. The bibliography contains more than 5,600 primary entries and is a testament to the expanding worldwide interest in the Danish

Leading international contributors present a lively and interdisciplinary panorama of the Italian Renaissance as it has developed in recent decades.

În 1949, regimul comunist român, aflat la începuturile sale, a dezlănușit o intensă și brutală campanie de colectivizare a agriculturii, după modelul sovietic, într-o țară cu un pronunțat profil agrar. Gail Kligman și Katherine Verdery analizează modul în care colectivizarea a zdruncinat din temelii viața rurală, transformând comunitățile tradiționale în organizații birocratice fundamentate pe „lupta de clasă”. Faptul că oamenii slab pregătiți, dintre care mulți nu erau convinși de beneficiile colectivizării, aplicau pedagogii și tehnologii importate din Uniunea Sovietică a avut drept consecințe acte de violență greu de controlat chiar și de liderii partidului. Autoarele arată că vastul proces de inginerie socială nu a afectat doar proprietățile țărănilor, ci a fost crucial pentru crearea partidului-stat, a mecanismelor de conducere și a „omului nou”. Având ca surse documente de arhivă, istorii orale și date etnografice, țărăni sub asediu aruncă o nouă lumină asupra colectivizării din România în epoca sovietică.

Carlo Michelstaedter ist in Deutschland einer der großen Unbekannten des italienischen Denkklimas um 1900. Der italienischsprachige Österreicher Michelstaedter, der sowohl philosophische, wie poetische Werke hinterließ, sich aber zuallererst als Maler verstand, wird hierzulande weder im Zusammenhang

mit der zeitgenössischen Sprachkrise von Hofmannsthal bis Wittgenstein, noch mit der zeitgleichen, expressionistischen Kunst diskutiert. Vorliegender Band möchte Anregung sein diese Lücke zu schließen. Die Beiträge von anerkannten MichelstaedterforscherInnen verstehen sich als Einführungen in die jeweiligen Bereiche, liefern zugleich aber genuin neue Forschungsansätze: Michelstaedters Philosophie, seine Poesie und Kunst werden vorgestellt, Analogien zu Benjamin und Sartre gezogen, ein Forschungsbericht, der die großen Tendenzen der letzten 30 Jahre vorstellt, soll den Anschluss der Forschung auch von deutschsprachiger Seite erleichtern. Das Werk dieses eminenten Vertreters der cultura mitteleuropea, das bis heute das Denken der italienischen Intellektuellen beeinflusst – Claudio Magris und Massimo Cacciari bspw. beziehen sich explizit auf Michelstaedter – kann damit erstmals breitere Würdigung im deutschsprachigen Raum erfahren.

This two-volume book offers a panoramic explanatory narrative of Soqatra Island's rediscovery based on the global significance of its endemic biodiversity. This rediscovery not only engendered Soqatra's protective environmental supervision by United Nations agencies, but also the intensification of its bureaucratic incorporation and political subordination by Yemen's mainland national government. Together, the two volumes provide a "total" community

study based on an historically contextualized and analytically detailed portrait of the Soqotran community via a multi-layered narrative the author terms a “mesography.” The first volume, *A Post-Exotic Anthropology of Soqotra, Volume I: A Mesography of an Indigenous Polity in Yemen*, situates the author’s study within the emergent configuration of the structures of knowledge production in the social sciences before moving onto a systematic identification of the constitutive aspects, pivotal vectors, and historical contexts of Soqotra’s transitioning polity. The second volume, *A Post-Exotic Anthropology of Soqotra, Volume II: Cultural and Environmental Annexation of an Indigenous Community*, explores how cultural modernization in the light of environmental annexation transforms communal possibilities, development models, environmental values, conservation priorities, cultural practices, economic aspirations, language preferences, livelihood choices, and other key social norms. The two volumes lay the social scientific foundations for the study of Soqotrans as an island-based indigenous community.

This volume examines how ideas of the nation influenced ordinary people, by focusing on their affective lives. Using a variety of sources, methods and cases, ranging from Spain during the age of Revolutions to post-World War II Poland, it demonstrates that emotions are integral to understanding the everyday pull of nationalism on ordinary people.

Kierkegaard has long been known as a philosopher and theologian, but his contributions to psychology, anthropology and sociology have also made an important impact on these fields. In many of the works of his complex authorship, Kierkegaard presents his intriguing and unique vision of the nature and mental life of human beings individually and collectively. The articles featured in the present volume explore the

reception of Kierkegaard's thought in the social sciences. Of these fields Kierkegaard is perhaps best known in psychology, where *The Concept of Anxiety* and *The Sickness unto Death* have been the two most influential texts. With regard to the field of sociology, social criticism, or social theory, Kierkegaard's *Literary Review of Two Ages* has also been regarded as offering valuable insights about some important dynamics of modern society..

Sono passati più di sessant'anni da quando lo storico delle religioni Mircea Eliade ha dato alle stampe la sua monografia dedicata allo sciamanesimo, un testo rivelatosi decisivo per imporre l'argomento nel dibattito interno alla storia delle religioni. La seconda edizione, aumentata e tradotta nel 1964 per il mercato editoriale statunitense, ha poi avuto un impatto significativo sui riferimenti culturali della giovane generazione dell'epoca. Sorprendentemente, e malgrado il successo dell'opera, non esiste a tutt'oggi un'analisi critica dedicata alla formazione eliadiana del concetto di

sciamanesimo. Si è così creato un vuoto storiografico che ha gravato sulle ricostruzioni e sulle interpretazioni del pensiero dello storico delle religioni. Evoluzionismo antidarwiniano, psicoanalisi, te(le)ologia, folklore, paleontologia e paleoantropologia, letteratura fantastica, paranormale e sovrannaturale, politica reazionaria e anti-occidentale sono alcuni tra gli strumenti discorsivi che entrano a vario titolo nel laboratorio della complessa macchina mitografica eliadiana. Andare a monte di questi riferimenti bio-biografici, tracciare le coordinate dei contatti intellettuali e decostruire le trame dei prestiti concettuali è quanto si propone di fare l'indagine presentata in questo libro.
