Over the past twenty years, presidential candidates have developed an entertainment talk show strategy in which they routinely chat with the likes of Oprah Winfrey, David Letterman, and Jon Stewart. In fact, between 1992 and 2012, there have been more than 200 candidate interviews on daytime and late night talk shows with nearly every presidential candidate—from long shot primary contender to major party nominee—hitting the talk show circuit at some point during the campaign. This book explores the development of the entertainment talk show strategy and assesses its impact on presidential campaigns. The chapters mix detailed narrative with extensive empirical data on audiences, content, viewer reaction, and press coverage to explain why candidates have embraced this strategy and the conditions under which these interviews are most likely to meet their expectations. The book also explores how these interviews can enhance campaigns by connecting a critical segment of the voting population with candidates who provide useful political information in a casual setting. Talk Show Campaigns shows that this is more than a gimmick—it's a key part of how candidates communicate with voters, which reveals a lot about how campaigns have changed over the past two decades.

In pursuit of her dream to view grizzly bears in the wild, the daughter of the Chief Justice of the United States Supreme Court is escorted into a remote area of northwest Yellowstone National Park by Beth Richardson, Associate Superintendent of Yellowstone. When the unexpected happens, former university president Parker Williams, owner of the Gold Medal Fly-Fishing Shop in West Yellowstone, Montana, is reluctantly drawn into a search and rescue mission which increasingly seems hopeless. Meanwhile, a pending vote by the nine justices of the United States Supreme Court on a controversial issue of national and historic proportions is playing out in Washington, D.C. Influenced by happenings in Yellowstone and orchestrated by a secretive organization headquartered in Idaho bent on changing the direction of the country, the vote of one justice means life or death unless Parker and Beth Richardson can accomplish the seemingly impossible. The involvement of an investigative reporter for The Washington Post and the participation of the FBI bring an unexpected twist to their mission. A Watery Grave in Yellowstone is the fourth novel in the Yellowstone Mystery Series. All are set against the backdrop of the wonder and splendor of Yellowstone National Park, our nation's premiere national park. As with the previous three novels, all royalties and proceeds for the sale of A Watery Grave in Yellowstone are shared equally between two national charitable organizations: Habitat for Humanity and Compassion International. No royalties are retained by the author. Readers wishing to learn more about these charities are referred to their respective websites.

This may be the single most important book you ever buy during your medical training. Rotations come and go, exams come and go, but regardless of specialty, patient-care will be at the heart of your practice. It is no exaggeration to say that motivational interviewing (MI) has

transformed the way doctors engage with patients, families, and colleagues alike. MI is among the most powerful tools available to promote behavior change in patients. In an age of chronic diseases (diabetes, hypertension, heart disease, obesity), behavior change is no longer limited to substance use or the field of psychiatry - maladaptive choices and behaviors that negatively impact health outcomes are rampant. There is an explosion of research projects using MI or adaptations of MI in the behavioral health medicine field in the past decade. Hospitalizations can't make people change. How marvelous is it that an evidence-based health behavior change approach (MI) can help people change the outcomes of their illnesses and the course of their lives. This therapeutic approach is not a form of psychotherapy and is not the stuff of cobwebs and old leather couches. MI is readily integrated into regular ward rounds and office visits and provides an effective and efficient approach to patients clinical encounters. Written by experts in the field and medical trainees across medicine, this is the first MI guide of its kind. It explores how MI enhances contact with patients from every level of training, following an accessible, succinct approach. This book covers the application of MI method and skills into practice and also includes numerous clinical scenarios, personal reflections and online animated clinical vignettes (video clips) that share the challenges and successes the authors have focused. Furthermore this book is endorsed by the pioneers of MI: William R. Miller & Stephen Rollnick.

Hans Küng has been a major influence on post-war Christianity by any reckoning. A peritus for the second Vatican council, he then went on to publish a number of controversial books, including *Infallible? An Enquiry* (1971), which enraged the Vatican and caused him to lose the ecclesiastical approval of his teaching at the university of Tübingen. However, he remains a respected priest in good standing with his bishop. Throughout all the upheavals that the Catholic Church has undergone in recent decades, Küng has been an outspoken observer, turning himself from enfant terrible to bête noire. However his world influence has been great. Whether speaking at the United Nations or consorting with politicians and religious leaders, he is always listened to with respect and enthusiasm. A string of recent books has added to his reputation-notably *On Being a Christian* (1974) and *Does God Exist? An Answer for Today* (1980) What is not so well known is that, as a young man, Küng was a close friend and confidant of Joseph Ratzinger (Benedict XVI). Over the years, however, they increasingly came to represent exactly what the other most despised. On being appointed to the Holy See, Ratzinger had a long private meeting with Küng, the consequences of which may resonate within the Catholic Church for many years. In these thrilling memoirs Küng gives his personal account of all these struggles and ambitions. The result is a book of major importance for any student of the church in the 20th century. This second volume covers the period following the close of the Second Vatican Council right up to the present day.

What may a German entrepreneur do if from Chinese customers permanent horror news are arriving, although his company otherwise enjoys satisfied customers all over the world? Bernhard Wessling drew the conclusions. Jettisoning all his prejudices and fears, he moved into the boom town of ShenZhen, near HongKong. Six years he lived and worked in China, read many books about China and rejected all advice. He traced and found his own way, and he succeeded. The author – called "LaoWei" by his Chinese friends – introduces the readers to China in an uncommon manner: humorously, excitingly and laxly telling. He presents fireworks of incidents that develop faster and faster. Beginning with his own fears and the first contacts, he lets the readers witness the setup of his company, the creative solutions to countless problems and the discovery of intriguing oases of nature. The scenes, sometimes touching, sometimes slapstick-like, sometimes profoundly serious, interlock and generate in the heads of the readers a sequence of bright and moving pictures. The observations of the author deeply delve below the surface. He avoids the jargon of standard China books and manuals about how to have success in China and what to strictly avoid. Rather, the reader finds a lively

description of how a successful business network was established. The author illustrates the story-telling non-fiction book with more than 140 of his own photos taken of the life on the streets, in the parks and of astonishing nature discoveries, right in the mega town of ShenZhen.

Childly Language explores how attitudes and cultural assumptions about children and childhood are revealed in contemporary English. In 1982 verkocht Haruki Murakami zijn jazzclub om zich geheel aan het schrijven te wijden. Hij begon toen ook met hardlopen om zijn conditie op peil te houden. Al een jaar later rende hij van Athene naar Marathon. In dit boek, na tientallen wedlopen, triatlons en door de pers bejubelde boeken, onderzoekt hij de invloed die de sport heeft gehad op zijn leven – en op zijn werk. Hij gunt de lezer een blik op de meest persoonlijke en uiteenlopende zaken: van het moment waarop hij besloot schrijver te worden, tot zijn grootste triomfen en teleurstellingen. I regard this book as a duty to honor my grandfather, Andras Lehoczky's memory. My

intention is to present the Legend telling how my ancestor witnessed one of the most fundamental turn of the Human history: Genghis Khan's vast Mongol empire's rise and decline, the Muslim world's crisis and beginning of the still ongoing expansion as well as crumbling of the Roman Church's crusade and political superiority. The stage is Central & Eastern European Region and the Near East at the time of the crusades. Misschien moet je eens met iemand praten? Een psychotherapeut zoekt antwoorden, voor patiënten én zichzelf Singel Uitgeverijen

"The purpose of my magazine is to not only showcase my work but it is also meant to serve as a platform for upcoming talents. So in other words if you are musician, singer, dancer, or model this magazine will give you a chance to showoff those skills. Eén op de drie Nederlanders zit wel eens op de bank bij een psycholoog – en sommige van deze patiënten zijn zélf therapeut, zoals Lori Gottlieb. In Misschien moet je eens met iemand praten? beschrijft ze sessies in haar spreekkamer met uiteenlopende patiënten als een pasgetrouwd stel dat moet omgaan met een dodelijke ziekte, een man met zelfmoordneigingen en een vrouw die telkens relaties begint met verkeerde mannen – maar ook de therapie die ze zelf volgt. Want naast psycholoog is Gottlieb allereerst mens, die worstelt met relatieproblemen en het opvoeden van haar zoon. Met humor, wijsheid en empathie gaat ze in op essentiële levensvragen over verlangens en behoeften, leegtes en betekenis, schuldgevoelens en opluchting, eenzaamheid en liefde. 'Ik werd meteen verliefd op dit boek. Gottlieb neemt ons mee naar het hart van haar therapeutische sessies met patiënten, én die van haarzelf. Als je ook maar een beetje geïnteresseerd bent in het therapeutische proces, of in het mens-zijn, móet je dit boek lezen. Het is wijs, warm, slim en grappig.' – Susan Cain 'Lori Gottlieb neemt ons mee in de intiemste confrontaties en laat ons achter met een verrassend frisse blik op onszelf, de ander, en de menselijke aard. Het boek is grappig, hoopgevend, wijs en fascinerend – en dat alles tegelijkertijd.' – Arianna Huffington

An alien starfish and a human man must learn to live in each other's bodies in Piers Anthony's ingenious sequel to the science fiction gem *Aliena* Along with fellow members of her sapient starfish race, *Aliena* traveled many light-years to Earth. There, in the host body of a human woman, the inquisitive extraterrestrial learned how to exist as a member of this perplexing earthborn race. Now Piers Anthony, the New York Times–bestselling maestro of science fiction and fantasy, continues the story in *Aliena Too*, as the males of two markedly different species must somehow adapt to one another. Lida Fisher knows that her beloved husband, Quincy, will die soon as the result of a rare and terrible brain rejection syndrome. But there is one hope. If Quincy consents to switch brains with one of the alien beings that have arrived from the other side of the galaxy, he will live on—albeit in the body of a starfish. And that means Lida must agree to let a new man into her life and her bed, one with the face and body of her adored husband but with the mind of an alien stranger. More difficult still, Lida must somehow teach this star man how to love. And many miles above the earth, Quincy

also will have to make extreme adjustments to a body and an existence he never dreamed would be his. But luckily, both Fishers will have someone to guide them through the perils, pitfalls, and traumas that must invariably accompany their strange new reality—a truly remarkable creature who has already been there and back again: *Aliena*.

'A uniquely charming and enticing journey through a remarkable life. Coward's own record is made all the more delightful by the wise and helpful interpolations of Barry Day, the soundest authority on the Master that there is.' Stephen Fry

'Precise, witty, remarkably observed and gloriously English' Dame Judi Dench

'Barry Day's analysis is both perceptive and irresistible' Lord Richard

Attenborough With virtually all the letters in this volume previously unpublished - this is a revealing new insight into the private life of a legendary figure. Coward's multi-faceted talent as an actor, writer, composer, producer and even as a war-time spy(!), brought him into close contact with the great, the good and the merely ambitious in film, literature and politics. With letters to and from the likes of: George Bernard Shaw, Virginia Woolf, Winston Churchill, Greta Garbo (she wrote asking him to marry her), Marlene Dietrich, Ian Fleming, Graham Greene, Evelyn Waugh, Fred Astaire, Charlie Chaplin, FD Roosevelt, the Queen Mother and many more, the picture that emerges is a series of vivid sketches of Noel Coward's private relationships, and a re-examination of the man himself.

Deliciously insightful, witty, perfectly bitchy, wise, loving and often surprisingly moving, this extraordinary collection gives us Coward at his crackling best. A sublime portrait of a unique artist who made an indelible mark on the 20th century, from the Blitz to the Ritz and beyond.

Lionel Shriver is schrijver van onder andere 'De Mandibles', 'De weg van de meeste weerstand' en 'Tot de dood ons scheidt'. CHRISTOPHER RORY PAGE Two bodies, two souls and an inspiring four way conversation between contrasting mortals as they journey through the African bush and discover the way from Fear to faith. The author awakens one morning riddled with fear from a deafening noise outside his bungalow window. This is the beginning of an exploration into the self as he meets a primitive man who proves that there is more to someone than meets the eye. A non-verbal form of communication develops between as the two men dissect the concept of fear based on age-old theories and beliefs. The reader is introduced to the Ukuesaba Isitebhisa which translated from Zulu means Fear Ladder. This shows the progression of fear from the most superficial to the most concrete. The common denominator to minimise the fear on all levels is to instil faith in various forms. From Fear to faith is an inspiring story and teaches as much as it entertains. Light hearted moments dispersed with simple truths make it must read for anyone who aims to minimise the fears in their lives which prevent them from being who they were born to be.

Examining the science of stream restoration, Rebecca Lave argues that the neoliberal emphasis on the privatization and commercialization of knowledge has fundamentally changed the way that science is funded, organized, and viewed in the United States. Stream restoration science and practice is in a startling state. The most widely respected expert in the field, Dave Rosgen, is a private consultant with relatively little formal scientific training. Since the mid-1990s, many academic and federal agency-based scientists have denounced Rosgen as a charlatan and a hack. Despite this, Rosgen's Natural Channel Design approach, classification system, and short-course series are not only accepted but are viewed as more legitimate than academically produced knowledge and training. Rosgen's methods are now promoted by federal agencies including the Environmental Protection Agency, the U.S. Forest Service, the U.S. Fish and Wildlife Service, and the Natural Resources Conservation Service, as well as by resource agencies in dozens of states. Drawing on the work of Pierre Bourdieu, Lave demonstrates that the primary cause of Rosgen's success is neither the method nor the man but is instead the assignment of a new legitimacy to

scientific claims developed outside the academy, concurrent with academic scientists' decreasing ability to defend their turf. What is at stake in the Rosgen wars, argues Lave, is not just the ecological health of our rivers and streams but the very future of environmental science.

"Mama, something terrible is wrong with me. There is blood in my panties!" Those were the words of seven-year-old Sarah. Mama told her she must have fallen or something and not to worry. Sarah went away feeling sad; her chance for help was gone! It was Sarah's alter, Susie, who had been sticking pencils and other items in her private place. Susie had come when Sarah was only four years old. Susie had become Daddy's 'special' little girl by sitting on his lap. In return he gave her a dollar for any change she had. Daddy played with Susie's pee pee and it was Susie that slept in the upstairs bedroom with her fourteen-year-old brother. Later in life, two other alters would appear. "You Love Your Daddy, Don't You?" is told through the memories of Sarah. It reveals a child's determination to survive despite profound emotional, physical, and sexual abuse. This was compounded by constant neglect from both parents. About the Author: Sarah Harrison has written several articles for the Women's Institute for Incorporation Therapy's monthly newsletter as well as articles for spiritual magazines. She also volunteers as a mentor in a local school system, helps with special group activities in an assisted living home, and provides guidance to troubled parents and teens on www.experts.com.
