Bowman (background: Christian Research Institute, Watchman Fellowship, lecturer at Biola University) sorts through myths and misinformation to answer these questions and more: • Are angels for real? • Do angels have bodies? • Should we look to angels for spiritual guidance? • Are we guaranteed angelic protection? • Will we become angels? • Do we each have a guardian angel? • Should you trust every angel? Is death a reality or an illusion? Is love truly the answer in every situation? You will find the answers as you follow the twisted path of darkness that descends upon Shea and Michael Ellington, and Elizabeth Grant. After the police tell Michael that Shea was killed in an explosion, he seeks to put his life back together and tries to forget. Elizabeth suffers from amnesia and wants only to remember. What Elizabeth doesn't know is that an assassin, Alexander Parapas, has been paid to eliminate her. It becomes a run-for-your-life experience. The question in her mind is why? As she searches for answers she finally remembers her past and discovers not only the reason she's a target, but also secrets considered nothing less than supernatural. The strange and unexplainable events are more fully understood later from ancient scrolls, and through discoveries from the heavenly side of life. This book may be considered a suspenseful and emotional crime drama with the police and FBI working together, but it is truly a heart-song of timeless love that ultimately reveals the light behind the shadows.

For four decades, John Randolph Haynes (1853-1937) was in the forefront of social-reform crusades and political action in Los Angeles and California, with his most important legacies in the fields of direct legislation and public ownership of utilities. He was the individual most responsible for the adoption of the initiative, referendum, and recall in Los Angeles in 1902 and in California in 1911. His vigilant protection of these measures thereafter and his promotion of direct legislation throughout the nation earned him the title "father of direct legislation" in California. From 1910 until his death, Haynes's chief priority was to shape the Los Angeles Department of Water and Power into a glowing example of public ownership of utilities. Today, LADWP operates the world's largest municipal water and electrical power generation and distribution system, continuing to serve the needs of an ever-growing region whose extent even Haynes could not have envisaged. In many ways, Haynes is an enigma. He was not a typical progressive, having amassed a fortune in his medical practice and in real estate,

mining, and other capitalistic ventures. However, he spent a large portion of his wealth to promote a form of gradual, democratic socialism in the United States. Haynes advocated the transformation of the nation's economy and government, yet he campaigned for morality laws that limited personal freedom. Haynes's motivation was not social status or money, both of which he had before his conversion to social reform. Nor was it political power: he never ran for office (except as a temporary freeholder) or created a personal political machine. His primary motive was a perhaps arrogant yet honest desire to aid in the creation of a more just society by improving the living and working conditions of the less fortunate. In one way or another, Haynes participated in all the major social and political events that shaped California and Los Angeles in a most dynamic era of their development. In a broader sense, Haynes's life serves as a yardstick with which to measure other progressives of his time and as a key for understanding the motivation of those idealists who helped shape our present political institutions.

Get Over It! is a tool and a process that offers readers a path to dominion over their most powerful asset: their mind. In today's turbulent climate, it can be challenging to stay on top of what is going on around us day-to-day, such as economic shifts, societal breakdowns, and lifestyle changes. We have become disconnected from our personal power, the intuitive light created by our autonomous thoughts. Through Get Over It!, a prayer book with a therapeutic underpinning, Iyanla offers practical tools based on the scientific theory of neuroplasticity, so we can transmute the dominant negative thought patterns (DNTPs) that threaten our sanity and spirituality on a daily basis. In Get Over It!, Iyanla identifies 42 common DNTPs and breaks them down into three key elements: 1. The train of thought that produces the pattern 2. A prayer and affirmation to neutralize the pattern 3. Self-directed spiritual practices (including meditations) that support the neutralization of the pattern in the mind and bod Through becoming aware of and neutralizing our DNTPs, we will up our "wattage": our ability to see and live beyond the influences and turbulence of our external environment.

Since 1973, TEXAS MONTHLY has chronicled life in contemporary Texas, reporting on vital issues such as politics, the environment, industry, and education. As a leisure guide, TEXAS MONTHLY continues to be the indispensable authority on the Texas scene, covering music, the arts, travel, restaurants, museums, and cultural events with its insightful recommendations. The marriages in this work are founded upon the records of the ancient shire of Isle of Wight and include marriages from the area of present-day Southampton County, erected from Isle of Wight in 1749. They derive chiefly from inferential sources, in particular will books, deed books, and order books, though marriage bonds, ministers' returns, and Quaker records also figure significantly in the list of sources. Since comparatively few marriage bonds or official marriage records of Isle of Wight County prior to the year 1800 survive, the great importance of this compilation is at once apparent. Some 6,300 persons are identified, everyone of whom, including grooms, is cited in the index.

Both curious and concerned, he pondered what to do next. Then he was suddenly given the specific instruction: See Jesus for the Code. This unique story will teach you what it means to be "spiritual" in this world.

In the year 2021, twelve men and women in high government posts suddenly disappear. When it is realized that the spouses are also missing, the FBI launches a multi-pronged investigation along with a complete media blackout. Kidnapping by a foreign terrorist group is suspected, but after discovering that there were no witnesses, signs of struggle, or evidence of foul play, intelligence services consider the possibility that the group left of their own accord and now represent a threat to our national security. Keri Winslow, a Washington television reporter, and Phillip Lansing, White House correspondent for a major network, find the location of the missing VIPs and are soon involved in the unraveling of an ancient mystery that has been fearfully controversial for centuries-that there are those among us who are not of this world. The characters in Sigma Rising are strong and memorable as they move through the twists and turns of a frenzied nation, clandestine meetings, paranormal experiences, grief and new found love, and a greater understanding about life and death. The secrets of the benevolent

beings who have been active on Earth for two million years is finally revealed. Although based on the spiritual truth of Ancient Wisdom with valid insights on the meaning of illusion and reality, this is basically a work of fiction. Names, characters, places and incidents are the product of the author's imagination.

From FATHER GOD Coming from what I like to call "the Divine Sparkler," we're each sparks of the creative force of Father and Mother God. You see, if we have two sides to our brain, male and female, it's the same with the mirror of creation. Our solid, static Father is the co-creator and is all intellect; while our Mother is the emotional, active, and we could say "interfering" God Who makes miracles in our charts (the "blueprint" that each of us chooses and designs for every life we live). We needed to have the intellect to pick our charts, but most feeling was left out - after all, if all the emotion in life seeped in, we might not be so inclined to go back to Earth for another round. God the Father helps us mold our charts to learn not only intellectually what we must go through for our own soul's perfection, but also to feed data back to Him. While knowledge is one facet of life on Earth, emotion is the other, and even if God knows everything, we still live for Him. The communion we share with our Father is part of the greatest love affair that will ever be. - Sylvia Browne
