Your complete guide to the Joomla! content management system Whether you use Joomla! to power a website, intranet, or blog, you'll need a good how-to reference on this complex, but not always intuitive, content management software. Joomla! Bible, Second Edition is that book. It not only brings you up to speed on the changes and extensions that are now part of Joomla! 3.0, it thoroughly covers functions and tasks, including installation, configuration, management, advanced modules, and extended coverage of two key extensions. You'll learn how to obtain code and deploy it to a server; how to obtain, modify, and delete content; how to choose between the Joomla! Platform and the Joomla! CMS; and more. By the time you finish the Joomla! Bible, Second Edition, you'll be well prepared to build and maintain a Joomla!-based website. Walks you through obtaining the Joomla! 3.0 code and how to deploy it to a server, configure the site, create content, and manage content and user hierarchies Helps you get the most out of core modules that provide advanced functionality, including the Polls Module, the Banner Manager, Content Syndication, Newsfeed Aggregation, and others Includes hands-on tutorials and real-world practical applications Whether you're a content manager, website manager, developer, or do-it-yourselfer, make sure you keep Joomla! Bible, Second Edition on hand. This book takes the reader through the tasks essential to create a Joomla! website as rapidly as possible. The necessary tasks are explained with clear step-by-step instructions. The authors chatty and engaging style makes this book very readable. This book is suitable for web developers, designers, webmasters, content editors, and marketing professionals who want to develop a website in a simple and straightforward process. It does not require any detailed knowledge of programming or web development, and any IT-confident individual will be able to use the book to produce an impressive website.

Clickandbuy Joomla 2.5 / VM 2.0.xxx is for already existing Joomla 1.5 / VM 1. / Clickandbuy Clients who are ready to upgrade and need a proper solution to be able to continue working with Clickanbuy. It is the perfect solution for all already existing Clickandbuy Customers. Latest spring 2014 we will release a Clickandbuy Plugin Joomla 2.5 for all NEW Clickandbuy customers. In the meanwhile enjoy happy customers with this solution!Demo included documentation:How to install ClickandBuy Plugin? Nothing more easy than this:MAIN IMPORTANT BEFORE YOU START: Make sure you have saved your premium url and merchant id from Clickandbuy. Without both the plugin will not work!Step 1: Log into your administrator surface and go to "Extension / Erweiterungen"Step 2: Search for ClickandBuy Plugin and clock on the button "install now"Step 3: Go to "Extensions" / "Erweiterungen" and click on "Plugin". There search for "VM - Payment, Clickandbuy". The plugin is deactivated on default. Activate this plugin in this sector manually.Step 4: Now go to "Components" and search for "Virtuemart". Click at "Virtuemart". Inside Virtuemart click at "Shop". Inside "Shop" click at "Payment methods" or "Zahlungsarten". When open click at the right top at the yellow button "+" = NEU.Step 5: A new payment method opens. Type as "Payment method title" (="Zahlungsart Bezeichnung": Clickandbuy. Click at the arrow next to "Payment method" / "Zahlungsart" and search for "VM - Payment, Clickandbuy". Choose as "Clients" / "Käufergruppe" all except "test shoppers".IMPORTANT: You MUST FIRST activate the Plugin VM - Payment, Clickandbuy in the Joomla core sector on the very top "Plugins" under "Extensions" / "Erweiterungen", else you will not be able to activate it in the Virtuemart sector.Step 6: Now you are able to make the configuration. Therefore you need your merchant premium id you got from Clickandbuy and you saved in your Joomla 1.5 Store AND you need your fitting merchant id. Save your configuration. ATTENTION! This plugin ONLY works with upgrading customers who are already Clickanbuy clients. It will NOT work with new Clickandbuy Clients. For them we release latest end of this year the perfect plugin. Step 7: Test your configuration. Make a test order. It is recommended to make this test order as USER and not as administrator or super user. Simply to be sure to get the correct results. When you have done everything fine, it should now look like this demo view. It not, you maybe have to upload the clickandbuy logo manually in following folder of your root folder: /images/stories/virtuemart/payment/. Take care, the pic is called: clickbuy.jpgStep 8: Choose Clickandbuy as payment method and place your order.Step 9: If you made all settings correctly you should now get transferred to the official Clickandbuy Website. Included the correct price of the ordered product and your merchant name at the top of this site. Congratulations! Your set-up is done :-) Latest spring 2014 we will release a Clickandbuy Plugin Joomla 2.5 for all NEW Clickandbuy customers. In the meanwhile enjoy happy customers with this solution!

Client-Centered Software Development: The CO-FOSS Approach introduces a method to creating a customized software product for a single client, either from scratch or by reusing open source components. The clients are typically non-profit humanitarian, educational, or public service organizations. This approach has been used in undergraduate courses where students learn the principles of software development while implementing a real-world software product. This book provides instructors, students, clients, and professional software developers with detailed guidance for developing a new CO-FOSS product from conceptualization to completion. Features Provides instructors, students, clients, and professional software developers with a roadmap for the development of a new CO-FOSS product from conceptualization to completion Motivates students with real-world projects and community service experiences Teaches all elements of the software process, including requirements gathering, design, collaboration, coding, testing, client communication, refactoring, and writing developer and user documentation Uses source code that can be reused and refitted to suit the needs of future projects, since each CO-FOSS product is free and open source software Provides links to a rich variety of resources for instructors and students to freely use in their own courses that develop new CO-FOSS products for other non-profits.

Building on the first edition of Joomla!: Visual QuickStart Guide, this task-based guide is the perfect tool for those just starting with Joomla, as well as, seasoned professionals who want to know how to use the latest version of the software to its fullest. It shows how to create, customize, and maintain a dynamic Joomla 1.6 website starting with fundamental concepts for using Joomla and then walks the user through every function of the system. It details the requirements for operating a secure and efficient Joomla website, including server configuration and website planning. The reader learns not only the functions of Joomla, such as adding content and structure, creating menus, using components, modules, plug-ins, and templates, but also how each function integrates as a whole. Each chapter ends with increasingly advanced topics, such as installation and configuration of the administrative back end, using 3rd-party extensions to create a portfolio, a blog, an e-commerce site, magazine, or news portal, as well as, how to use content construction kits, create custom templates, and integrate social media. New features covered in this edition include: how to use the redesigned admin interface; new menu systems, including advanced functions for developers; how to use the category-article structure of content; the ability for users to create their own groups and assign access control levels; and control and customization of templates.
