

## Massachusetts State Building Code 8 Edition File Type

Prepared by the Subcommittee on Evaluation, Maintenance, and Upgrading of Timber Structures of the Committee on Wood of the Structural Division of ASCE. This report presents information on technical aspects of inspection, evaluation, reinforcement, repair, and rehabilitation of timber structures. Any structure, regardless of the material from which it is made, may be subject to a review of its ability to perform a specific function or functions. This report reviews factors that influence the serviceability of wood structures, including loadings, duration of loads, temperature, moisture and weathering. Effects of chemicals and fire, as well as insects, fungi, and other organisms that attack wood are also covered. Designing to avoid problems caused by these factors is discussed. Inspection techniques and equipment are described, along with guidelines on where to look and what to look for. A section of evaluation of wood structures includes criteria such as structural analysis, determination of loads, and estimating load carrying capacity.

Identifies and describes in detail the existing and potential regulatory and financial mechanisms and incentives in the various levels of government that can reasonably be used in a course of action to lessen the risks posed by existing buildings in an earthquake.

The proceedings contain contributions presented by authors from more than 30 countries at EURO DYN 2002. The proceedings show recent scientific developments as well as practical applications, they cover the fields of theory of vibrations, nonlinear vibrations, stochastic dynamics, vibrations of structured elements, wave propagation and structure-borne sound, including questions of fatigue and damping. Emphasis is laid on vibrations of bridges, buildings, railway structures as well as on the fields of wind and earthquake engineering, respectively. Enriched by a number of keynote lectures and organized sessions the two volumes of the proceedings present an overview of the state of the art of the whole field of structural dynamics and the tendencies of its further development.

This comprehensive resource explores the effective handling of basic and complicated residential and commercial landlord-tenant questions. In addition to detailing the potent "substantive rights" created by the State's Consumer Protection Act (Chapter 93A), it analyzes the differences between various rent control statutes of municipalities such as Boston, Cambridge, and Brookline and offers settlement strategies for both landlords and tenants. Plentiful citations to authority help you support your case.

Issues for 1955 accompanied by supplement: Construction volume and costs, 1915-1954.

If you are building, adding to, modifying, or even upgrading a commercial antenna system, and most especially if you hope to erect a new tower, then zoning laws apply to you. Antenna Zoning enables you to successfully navigate structure regulations, permitting, and even lease negotiations. Whether you are involved with broadcast radio or television, cellular telephone, paging, wireless internet service, or other telecommunications, this book is a must-have before you begin work on the project. Author Fred Hopengarten is a specialized communications lawyer with extensive experience in antenna and tower regulation, and has been involved in many high-profile zoning cases. His first-hand experience comes to you in this book with lessons learned, case studies, examples, and material you can use presented in an easy-to-understand manner.

Taunton's Best of Fine Homebuilding series collects and organizes the most useful articles from FINE HOMEBUILDING magazine by subject. Each book is filled with step-by-step articles written by professional builders who share their expertise to help readers achieve quality results. Here 31 articles by master masons explain the best ways to build with brick, stone, and mortar from stone walls to flagstone to fireplaces and chimneys.

This overview of property law addresses both classic and contemporary topics covered in the first-year property course in a clear, accessible format. The book offers clear explanations of property law through textual treatment, with numerous examples, analytical discussion of key cases, and issues followed by hypotheticals. Emphasis is placed on disagreements among states about the applicable rules of property law, with explanations of the conflicting issues. Key Features: New section on the subprime mortgage crisis provides a contemporary look at property law (includes a discussion of the Massachusetts SJC case Commonwealth v. Fremont) Material on the Harry Potter copyright case (Warner Bros. Entertainment, Inc. & J.K. Rowling v. RDR Books) Recent Oregon land-use ballot initiatives regarding property owners' rights (Measures 37 and 49) and their impact A new case on ownership issues surrounding Civil War-

era papers once belonging to the governors of South Carolina (Wilcox v. Stroup)
