

Medical Surgical Nursing Ignatavicius 6th Edition Apa Citation

Healthcare is evolving at an incredible pace and with it, the roles and responsibilities of the medical-surgical nurse. Ensure you are fully equipped to thrive and adapt in this ever-changing nursing environment with Ignatavicius, Workman, and Rebar's Medical-Surgical Nursing: Concepts for Interprofessional Collaborative Care, 9th Edition. This trendsetting text not only covers all essential adult health knowledge, but also reinforces the application, conceptual thinking, and clinical judgment skills that today's nurses need to stay one step ahead in delivering exceptional patient care, no matter the environment. As with previous "Iggy" editions, you'll find a unique collaborative care approach to adult health nursing, a thorough integration of QSEN competencies, extensive NCLEX Exam preparation, and a direct, reader-friendly tone throughout the text. This ninth edition incorporates two emerging and complementary trends - the Core Competencies for Interprofessional Collaborative Practice and a more conceptual approach teaching and learning - areas that will ground you in how to think like a nurse and how to apply the knowledge you gain from the text to clinical practice. There are a lot of med-surg nursing texts out there, but there's only one that combines all the information, concepts, and on-the-job realities in a way that makes perfect sense: "Iggy!" Trendsetting QSEN integration emphasizes patient safety and evidence-based practice with Nursing Safety Priority boxes, including Drug Alerts, Critical Rescues, and Action Alerts. UNIQUE! Emphasis on clinical judgment helps you develop skills in clinical reasoning and clinical decision-making when applying concepts to clinical situations. Strong emphasis on NCLEX Exam preparation includes chapter-opening Learning Outcomes and chapter-ending Get Ready for the NCLEX Examination! sections organized by NCLEX Client Needs Categories, plus NCLEX Examination Challenge questions, with an answer key in the back of the book and on the Evolve companion website. Exceptionally readable content features shorter sentences, straightforward vocabulary, and a direct, reader-friendly writing style. NEW! Enhanced emphasis on conceptual teaching and learning features a strong integration of nursing concepts and exemplars throughout the book via new concept overview chapters, chapter-opening concept lists, and a focus on concept exemplars within disorders chapters. NEW! Integration of interprofessional collaborative practice takes the book's hallmark collaborative management approach to the next level via new collaboration-focused Clinical Judgment Challenges, integration of a new Teamwork & Interprofessional Collaboration concept, and in-depth integration within TEACH lesson plans. NEW! Deeper integration of Tanner's model of clinical nursing judgment utilizes Tanner's terminology within nursing process headings, NCLEX Examination Challenge questions, and Key Points. NEW! Stronger emphasis on health promotion and community-based care includes revised and updated content throughout the text to reflect the reality that most adult health care no longer takes place as long-term stays in high-acuity settings. NEW! More consistent, interprofessional terminology for patient problems promotes interprofessional collaboration through the promotion of a common healthcare language. NEW! Updated content throughout reflects the most recent changes in practice and the latest evidence-based guidelines, particularly national and international treatment guidelines and protocols. NEW! More consistent learning outcomes now incorporate QSEN and nursing concepts in a more consistent and intentional manner from chapter to chapter.

Care of patients with skin problems -- Care of patients with burns -- Assessment of the respiratory system -- Care of patients requiring oxygen therapy or tracheostomy -- Care of patients with noninfectious upper respiratory problems -- Care of patients with noninfectious lower respiratory problems -- Care of patients with infectious respiratory problems -- Care of critically ill patients with respiratory problems --

Assessment of the cardiovascular system -- Care of patients with dysrhythmias -- Care of patients with cardiac problems -- Care of patients with vascular problems -- Care of patients with shock -- Care of patients with acute coronary syndromes -- Assessment of the hematologic system -- Care of patients with hematologic problems.

Learn facility-based coding by actually working with codes. ICD-10-CM/PCS Coding: Theory and Practice provides an in-depth understanding of in-patient diagnosis and procedure coding to those who are just learning to code, as well as to experienced professionals who need to solidify and expand their knowledge. Featuring basic coding principles, clear examples, and challenging exercises, this text helps explain why coding is necessary for reimbursement, the basics of the health record, and rules, guidelines, and functions of ICD-10-CM/PCS coding.

UPDATED ICD-10 codes and coding guidelines revisions ensure students have the most up-to-date information available. 30-day access to TruCode® encoder on the Evolve companion website provides students realistic practice with using an encoder. UPDATED codes for Pancreatitis, Diabetic Retinopathy, Fractures, GIST Tumors, Hypertension and Myocardial Infarctions. ICD-10-CM and ICD-10-PCS Official Guidelines for Coding and Reporting provide fast, easy access instruction on proper application of codes. Coverage of both common and complex procedures prepares students for inpatient procedural coding using ICD-10-PCS. Numerous and varied examples and exercises within each chapter break chapters into manageable segments and help students gauge learning while reinforcing important concepts. Illustrations and examples of key diseases help in understanding how commonly encountered conditions relate to ICD-10-CM coding. Strong coverage of medical records provides a context for coding and familiarizes students with documents they will encounter on the job. Illustrated, full-color design emphasizes important content such as anatomy and physiology and visually reinforces key concepts.

One of the most complete nursing education learning systems available, Virtual Clinical Excursions is an online program that guides you through a virtual hospital where the patients are real and their conditions are constantly changing. By immersing students in a realistic, yet safe, nursing environment, VCE simulates the average clinical rotation by allowing users to conduct a complete assessment of a patient and set priorities for care, collect information, analyze and interpret data, prepare and administer medications, and reach conclusions about complex problems. Each lesson has a textbook reading assignment and activities based on "visiting" the patients in the hospital - providing a perfect environment to "practice" what you are learning. IMPORTANT: The virtual hospital will be accessible online coming Fall 2013. Online workbook includes a set of lessons to prepare and guide you through a variety of patient scenarios, which are all connected to your textbook. Physical examination interactions include unique images and assessment findings for each patient scenario. Patient chart provides quick access to vital information such as physician's orders, laboratory reports, patient education, nursing admission, and more, offering a richly detailed portrait of the patient. Electronic patient record houses data from the patient's entire hospital stay and offers the ability to record new data findings. Nurse-client interaction videos depict conversations and situations involving nurses, patients, family members, and hospital staff to help you discern between communications that are ideal and those that need improvement. Updated drug reference includes a comprehensive set of the latest drug monographs to help you make the best clinical judgments involving medication administration. NEW! Online format enables you to access Virtual Clinical Excursions from any PC or MAC with an internet connection. NEW! Laboratory guide provides standard value ranges for all laboratory values offered within the virtual patient hospital, so you can confirm and compare standard lab values against your patients' test results.

A vital member of the health care team, the contemporary enrolled nurse faces increasing challenges and an increasing level of responsibility. Written specifically for Australian and New Zealand enrolled nurse students, this long awaited new edition reflects the changes

and challenges in contemporary enrolled nurse practice as well as the additions and modifications that are occurring in nursing curricula. Taberner's Nursing Care: Theory and Practice 5th edition has been written, reviewed and edited by the people who educate the enrolled nurse and continues to provide enrolled nurse students with the most comprehensive resource available.

Master the essential medical-surgical nursing content you'll need for success on the Next-Generation NCLEX® Exam (NGN) and safe clinical practice! Medical-Surgical Nursing: Concepts for Interprofessional Collaborative Care, 10th Edition uses a conceptual approach to provide adult health knowledge and help you develop the clinical nursing judgment skills that today's medical-surgical nurses need to deliver safe, effective care. "Iggy" emphasizes three emerging trends in nursing - interprofessional collaborative care, concept-based learning, and clinical judgment and systems thinking - trends that will ground you in how to think like a nurse and how to apply your knowledge in the classroom, simulation laboratory, and clinical settings. A perennial bestseller, "Iggy" also features NCLEX Exam-style Challenge and Mastery questions to prepare you for success on the NGN! UNIQUE! Interprofessional collaborative approach to care views medical and nursing management through the lens of the nursing process and the NCSBN Clinical Judgment Model and aligns with the Interprofessional Education Collaborative (IPEC) Core Competencies for Interprofessional Collaborative Practice. Consistent use of interprofessional terminology promotes interprofessional collaboration through the use of a common healthcare language, instead of using isolated nursing-specific diagnostic language. UNIQUE! Enhanced conceptual approach to learning integrates nursing concepts and exemplars, providing a foundation in professional nursing concepts and health and illness concepts and showing their application in each chapter. Unparalleled emphasis on clinical reasoning and clinical judgment helps you develop these vital skills when applying concepts to clinical situations. UNIQUE! Emphasis on Next-Generation NCLEX® Exam (NGN) preparation includes chapter-opening Learning Outcomes and chapter-ending Get Ready for the NCLEX Examination! sections, plus NCLEX Examination Challenge questions and new Mastery Questions, with an answer key in the back of the book and on the companion Evolve website. Emphasis on QSEN and patient safety focuses on safety and evidence-based practice with Nursing Safety Priority boxes, including Drug Alert, Critical Rescue, and Action Alert boxes. Direct, easy-to-read writing style features concise sentences and straightforward vocabulary. Emphasis on health promotion and community-based care reflects the reality that most adult health care takes place in environments outside of high-acuity (hospital) settings. NEW! Strengthened conceptual approach with data-driven Concept and Exemplar selections adds the concepts of pain, inflammation, and infection, and presents Exemplar disorders with a nursing-process format and depth to help prepare you for the Next-Generation NCLEX® Exam (NGN). NEW and UNIQUE! Enhanced focus on clinical judgment and systems thinking ensures alignment with the NCSBN Clinical Judgment Model and emphasizes the six cognitive skills you'll need for effective clinical judgment, for the NGN, and for safe clinical practice. NEW! Emphasis on need-to-know content provides a solid foundation for beginning nurse generalists, including only the most important patient problems for each medical condition, with streamlined chapters and concise coverage of nursing skills for preoperative and postoperative care. NEW! Updated content throughout reflects the latest national and international evidence-based guidelines and protocols. NEW! Improved learning resources on the companion Evolve website are thoroughly updated and closely integrated with the textbook. NEW! Interprofessional Collaboration boxes highlight how the nurse collaborates with other members of the healthcare team. NEW! Ethical/Legal Considerations boxes address dilemmas that medical-surgical nurses face related to technological changes and socioeconomic disparities. NEW! Increased emphasis on home care, health promotion, and community-based care reflects the ongoing shift of care from hospitals to the home environment. NEW! Updated illustrations include new anatomy and physiology images, procedure images, and disorder photos. NEW! Updated drug tables are

designed for quick reference and the use of drug trade names is eliminated for better alignment with the NGN. NEW! Coverage of opioid misuse is updated to reflect the opioid crisis in the U.S. NEW! Content on personal safety and preparedness for mass casualty events has been expanded to equip you for the realities of healthcare today. NEW! Key terms and definitions at the beginning of each chapter give you advance familiarity with essential terminology. NEW! Revised Key Points align closely with Learning Outcomes and each includes a QSEN or Clinical Nursing Concept "tag" to maximize your study efficiency. NEW! Simplified and streamlined chapters make the book easier to use and information easier to find.

Master content from the textbook with this helpful study tool! Designed to accompany Ignatavicius' Medical-Surgical Nursing, 6th edition, this workbook will assist students in understanding and applying material from each chapter in the text.

Part of the popular LPN Threads series, this comprehensive text prepares you for safe and effective nursing practice in today's fast-paced healthcare environment. Covering maternal and neonatal, pediatric, geriatric, mental health, and community nursing, *Foundations of Nursing, 6th Edition*, includes all of the essential LPN/LVN content you need. Companion CD includes animations and audio clips depicting physiologic processes, physical assessment video clips, an English/Spanish glossary with definitions and audio pronunciations, an anatomy coloring book, and a fluid and electrolytes tutorial. The consistent, logical framework of the nursing process connects specific disorders to patient care. A mathematics review chapter provides a complete review of basic arithmetic skills and practice in drug dosage calculation to ensure safe medication administration. Safety Alert boxes help you implement The Joint Commission's safety guidelines in all settings, with considerations for special populations. Nursing Diagnosis boxes, screened and highlighted in the text, include nursing diagnoses for specific disorders paired with the appropriate nursing interventions. More than 100 skills in a step-by-step format with full-color illustrations present clearly defined nursing actions with rationales for the skills and techniques you'll use in practice. Medication tables are meticulously detailed and provide quick access to action, dosage, precautions, and nursing considerations for commonly used drugs. Nursing Care Plans, presented in a case-study format, emphasize patient goals and outcomes and end with Critical Thinking Questions to develop your clinical decision-making skills. Coordinated Care boxes emphasize parameters for prioritizing tasks, as well as assigning tasks to and supervising unlicensed assistive personnel. Patient Teaching boxes and Family Teaching boxes include post-hospital discharge guidelines and disease prevention instructions with a strong focus on three-way communication among the nurse, patient, and family members. Life Span Considerations for Older Adults boxes provide age-specific information for the care of the aging population, which is often the primary focus of the LPN/LVN nurse. Home Care Considerations boxes discuss the issues facing patients and caregivers in the home health care setting. Health Promotion boxes provide key information on staying healthy and preventing disease, with tips on wellness from Healthy People 2010. Cultural Considerations boxes discuss how to address the health needs of a culturally diverse patient population when planning care. Enhanced focus on the NCLEX® Examination offers end-of-chapter Get Ready for the NCLEX Examination! sections with key points for self-guided study and remediation and an extensive set of review questions for thorough self-assessment. Additional review questions on Evolve provide instant feedback with correct answer and rationale for even more test-taking practice. Evidence-Based Practice boxes summarize the latest research findings and highlight how they apply to LPN/LVN practice. Updated, vibrant full-color design highlights key information and

enhances your understanding of important concepts.

Clinical Companion for Medical-Surgical Nursing - Elsevier on VitalSource

The easy-to-use Clinical Companion for Ignatavicius and Workman's Medical-Surgical Nursing: Patient-Centered Collaborative Care, 8th Edition, is an A-Z guide to more than 250 common medical-surgical conditions and their management. Written in a reader-friendly, direct-address style, this resource is a convenient tool that you can carry with you on clinical days. Now organized in a streamlined collaborative care format, complete with new QSEN highlights and a reorganized Concepts in Medical-Surgical Nursing section, it will quickly become your best bedside reference. A-Z synopses of more than 250 diseases and disorders, along with related collaborative care, serve as both a quick reference for clinical days and a study resource for diseases/disorders and related collaborative care. Consistent collaborative care format mirrors the coverage provided in the Ignatavicius & Workman textbook to more effectively prepare students for clinical days. UNIQUE! Nursing Safety Priorities reinforce critical safety measures at the bedside and mirror those in the Ignatavicius & Workman text: Drug Alert, Critical Rescue, and Action Alert. Special Considerations highlights call students' attention to important aspects of nursing care, such as Genetic/Genomic Considerations, Considerations for Older Adults, Gender Health Considerations, and Cultural Considerations. A Concepts of Medical-Surgical Nursing section (Part One) includes a NEW! concept on fluid and electrolyte balance, reflects the emphasis on concepts from Giddens' Concepts of Nursing Practice, and provides students with an understanding of essential concepts needed for effective nursing practice. A-Z printed thumb tabs appear along the edges of the pages to facilitate quick access to clinical information for just-in-time learning and reference at the bedside. 8 quick-reference appendices provide need-to-know, quick-reference coverage of common and some less typical clinical topics. NEW! Updated content matches the 8th edition of the Ignatavicius & Workman textbook for a reliably seamless reference and study experience. NEW! Streamlined collaborative care format helps you focus more effectively on nursing care priorities. NEW! QSEN highlights each focus on one or more of the six core QSEN competencies (Patient-Centered Care, Teamwork & Collaboration, Evidence-Based Practice, Quality Improvement, Safety, and Informatics) to help you understand how to apply QSEN competencies for safe patient care.

"[This book] has been honed into an elegant compendium. This outstanding work should be widely read -- it is perhaps the best example of an integrative approach to gerontology." Score: 94, 4 stars --Doody's This sixth edition of a classic multidisciplinary text for students of gerontology continues to offer practical, reader-friendly information about the physical changes and common pathologies associated with the aging process. It places special emphasis on the psychological and social implications of these changes in the lives of older adults. The book is distinguished by its thorough focus on anatomy and physiology and common health problems pertaining to each body system. This latest edition has been thoroughly updated to present new research findings that differentiate "normal" aging from actual pathology. It provides new data and guidelines on risk factors, nutrition, preventive measures, interventions, and commonly prescribed medications, and includes expanded treatment of complementary and alternative therapies. The book emphasizes the positive aspects of aging and demonstrates how the elderly population can gain greater personal control, through lifestyle changes and preventative health strategies, toward the goal of optimal aging. The book also includes an updated discussion of grief, ethical issues, and funeral options. Written for students of gerontology, social work, human services, nursing, occupational and physical therapy, counseling, and elder law, it presents information that is clearly understandable for those without an extensive background in biology or medicine. The book reinforces information with practical applications of aging data. Physical Change and Aging, Sixth Edition comes with instructor materials, including PowerPoint presentations and test banks

for each chapter. An eBook format for Physical Change and Aging is also available. This sixth edition includes new information on: Genetic/DNA theories Dementia and Parkinson's Disease Immunotherapy Lifelong health disparities Pet-assisted therapy Prayer and meditation Pharmacogenetics Gerogogy (self-directed learning) health as public health issue Natural funerals (biodegradable caskets, burial urns, dying at home)

Using a unique collaborative care approach to adult health nursing, *Medical-Surgical Nursing: Patient-Centered Collaborative Care, 8th Edition* covers the essential knowledge you need to succeed at the RN level of practice. Easy-to-read content includes evidence-based treatment guidelines, an enhanced focus on QSEN competencies, and an emphasis on developing clinical judgment skills. This edition continues the book's trendsetting tradition with increased LGBTQ content and a new Care of Transgender Patients chapter. Written by nursing education experts Donna Ignatavicius and M. Linda Workman, this bestselling text also features NCLEX® Exam-style challenge questions to prepare you for success on the NCLEX Exam. Cutting-edge coverage of the latest trends in nursing practice and nursing education prepares you not just for today's nursing practice but also for tomorrow's. **UNIQUE!** Collaborative care approach organizes all medical, surgical, nursing, and other interventions within the framework of the nursing process, mirroring the nurse's role in the coordination/management of care in the real world of medical-surgical nursing. **UNIQUE!** A focus on nursing concepts relates concepts learned in *Nursing Fundamentals* with the disorders you will study in *Medical-Surgical Nursing*. Easy to read, direct-address writing style makes this one of the most readable medical-surgical nursing textbooks available. **UNIQUE!** A focus on QSEN emphasizes patient safety and evidence-based practice with Nursing Safety Priority boxes including Drug Alerts, Critical Rescues, and Action Alerts. **UNIQUE!** Emphasis on clinical judgment teaches you to develop skills in clinical reasoning and clinical decision-making when applying concepts to clinical situations, with Clinical Judgment Challenge questions throughout the chapters. An emphasis on prioritization stresses the most important patient problems and nursing interventions, with patient problems presented in a single prioritized list of nursing diagnoses and collaborative problems. **UNIQUE!** NCLEX preparation tools include chapter-opening Learning Outcomes and chapter-ending Get Ready for the NCLEX Examination! sections organized by NCLEX® Client Needs Categories, plus NCLEX Examination Challenge questions, with an answer key in the back of the book and on the Evolve companion website. Practical learning aids include NCLEX Examination Challenges, Clinical Judgment Challenges, Best Practice for Patient Safety & Quality Care charts, common examples of drug therapy, concept maps, laboratory profiles, and more. A clear alignment with the language of clinical practice reflects the real world of nursing practice with NANDA diagnostic labels where they make sense, and non-NANDA diagnostic labels when these are more common descriptions of patient problems. Student Resources on an Evolve companion website help you prepare for class, clinicals, or lab with video and audio clips, animations, case studies, a concept map creator, NCLEX exam-style review questions, and more. **UNIQUE!** Concentration on essential knowledge for the RN level of medical-surgical nursing practice focuses your attention on need-to-know content to pass the NCLEX Examination and practice safety as a beginning nurse. **NEW!** Enhanced focus on QSEN (Quality and Safety Education for Nurses) competencies includes new icons identifying QSEN competency material and new Quality Improvement boxes describing projects that made a dramatic difference in patient outcomes. **UPDATED** learning features include an expanded emphasis on developing clinical judgment skills; on prioritization, delegation, and supervision skills; on long-term care issues; and on preparation for the NCLEX® Examination and consistency with the 2013 NCLEX-RN® Test Plan. **NEW!** **UNIQUE!** Care of Transgender Patients chapter discusses the unique health care needs and issues specific to the transgender community. Improved delineation of NANDA-I nursing diagnoses clearly differentiate NANDA diagnoses from collaborative

problems. NEW photos and drawings show patient care skills as well as the latest in nursing education and practice.

This is the eBook of the printed book and may not include access to the practice test software. The NCLEX-PN Practice Questions Exam Cram, Fifth Edition, provides 1,000 questions for the nursing student who wants to be better prepared for the exam. Revised and completely updated for the 2017 changes to the exam, this new edition replaces the successful previous editions that proved so popular with nursing students. Anxiety about the exam is high among nursing students and results from the focus group say 'the more practice questions to study, the better!' The Exam Cram questions cover topics the student will likely encounter on the real exam including alternative items. Like all of the Exam Cram books the NCLEX-PN Practice Questions Exam Cram contains a cram sheet for last minute review of important information in a concise, easy to remember format.

Designated a Doody's Core Title! "This is an excellent teaching guide and resource manual for instructors, gerontological nursing students, and practicing nurses and social workers who wish to learn more about geriatric concerns and care. It will be kept by nursing students long after they graduate as a guide to resources that will be valuable throughout their nursing careers. As a home care nurse working mainly with the geriatric community, I found the resources helpful in my practice. As an instructor, I found the book to be a very useful guide for teaching geriatrics." Score: 90, 4 Stars. -Doody's Medical Reviews "Donna Bowles's Gerontology Nursing Case Studies is a unique volume that effectively addresses the lack of gerontology case studies for use with undergraduate nursing students. Case studies are a pedagogically powerful approach to active learning that offer opportunities to apply content to clinical practice."--The Gerontologist "The case narrative approach of this book promotes active learning that is more meaningful to students (and practicing nurses) and more likely to increase the transfer of evidence into practice. An excellent resource for faculty (staff educators) to facilitate critical learning skills." Liz Capezuti, PhD, RN, FAAN Dr. John W. Rowe Professor in Successful Aging Co-Director, Hartford Institute for Geriatric Nursing New York University College of Nursing "This is a terrific text that provides nurses and other health care providers [with] good basic information about clinical problems and challenges we face in providing care to older adults. It should be considered required reading in all undergraduate programs." --From the foreword by Barbara Resnick, PhD, CRNP, FAAN, FAANP Professor, University of Maryland School of Nursing Sonya Ziporkin Gershowitz Chair in Gerontology At the heart of this unique volume are 100 case studies of older adults that address nearly every issue-physical, mental, and psychosocial-that may confront health care providers who work with the aging population. These case studies, culled from contributors with several centuries' worth of combined nursing expertise, are designed to guide nursing students in the development of interventions that encompass both complementary and alternative health strategies. Exercises interspersed throughout each case study are designed to foster critical thinking and decision-making skills. These case narratives provide a holistic approach to problem solving in regard to political, ethical, and legal issues; loss and end-of-life issues; elder abuse; depression, addiction and suicide; self-esteem and family relationships; sexuality; age-related health issues; cognitive impairment; cultural diversity as it relates to aging; pain management; and sleep disturbances. The volume also addresses such contemporary psychosocial issues as gambling addiction, hoarding behavior, emergency preparedness, the aging driver, and long-distance caregiving. Key Features: Provides 100 evidence-based case studies Cultivates development of critical thinking and decision-making skills Features realistic, contemporary scenarios Designed for use across the gerontology nursing curriculum Geared for AACN and NLN Accreditation Organized according to the needs of actual clinical settings Using a unique collaborative care approach to adult health nursing, Medical-Surgical Nursing: Patient-Centered Collaborative Care, 8th Edition covers the essential knowledge you need to succeed at the RN level of practice. Easy-to-read content includes evidence-based

treatment guidelines, an enhanced focus on QSEN competencies, and an emphasis on developing clinical judgment skills. This edition continues the book's trendsetting tradition with increased LGBTQ content and a new Care of Transgender Patients chapter. Written by nursing education experts Donna Ignatavicius and M. Linda Workman, this bestselling text also features NCLEX® Exam-style challenge questions to prepare you for success on the NCLEX Exam. Cutting-edge coverage of the latest trends in nursing practice and nursing education prepares you not just for today's nursing practice but also for tomorrow's. UNIQUE! Collaborative care approach organizes all medical, surgical, nursing, and other interventions within the framework of the nursing process, mirroring the nurse's role in the coordination/management of care in the real world of medical-surgical nursing. UNIQUE! A focus on nursing concepts relates concepts learned in Nursing Fundamentals with the disorders you will study in Medical-Surgical Nursing. Easy to read, direct-address writing style makes this one of the most readable medical-surgical nursing textbooks available. UNIQUE! A focus on QSEN emphasizes patient safety and evidence-based practice with Nursing Safety Priority boxes including Drug Alerts, Critical Rescues, and Action Alerts. UNIQUE! Emphasis on clinical judgment teaches you to develop skills in clinical reasoning and clinical decision-making when applying concepts to clinical situations, with Clinical Judgment Challenge questions throughout the chapters. An emphasis on prioritization stresses the most important patient problems and nursing interventions, with patient problems presented in a single prioritized list of nursing diagnoses and collaborative problems. UNIQUE! NCLEX preparation tools include chapter-opening Learning Outcomes and chapter-ending Get Ready for the NCLEX Examination! sections organized by NCLEX® Client Needs Categories, plus NCLEX Examination Challenge questions, with an answer key in the back of the book and on the Evolve companion website. Practical learning aids include NCLEX Examination Challenges, Clinical Judgment Challenges, Best Practice for Patient Safety & Quality Care charts, common examples of drug therapy, concept maps, laboratory profiles, and more. A clear alignment with the language of clinical practice reflects the real world of nursing practice with NANDA diagnostic labels where they make sense, and non-NANDA diagnostic labels when these are more common descriptions of patient problems. Student Resources on an Evolve companion website help you prepare for class, clinicals, or lab with video and audio clips, animations, case studies, a concept map creator, NCLEX exam-style review questions, and more. UNIQUE! Concentration on essential knowledge for the RN level of medical-surgical nursing practice focuses your attention on need-to-know content to pass the NCLEX Examination and practice safety as a beginning nurse.

"Clinical companion for Medical-surgical nursing : patient-centered collaborative care. Eighth Edition"--Verso of title page.

A classic text since it was first published in 1974, the Lippincott Manual for Nursing Practice (LMNP) has provided essential nursing knowledge and up-to-date information on patient care for nearly 40 years. Now in its 10th edition, this full-color text continues to serve as the most comprehensive reference for practicing nurses and nursing students worldwide. Often referred as the 'Lippincott Manual' or simply the 'Lippincott', the LMNP is widely used as a procedure manual for many healthcare institutions (contains 157 Nursing Procedure Guidelines). It is also widely regarded as the Gold Standard for nursing practice in the classroom. Organized into five major parts, LMNP presents a comprehensive reference for all types of core nursing care. Part 1: Nursing Process & Practice; Part 2: Medical-Surgical Nursing; Part 3: Maternity & Neonatal Nursing; Part 4: Pediatric Nursing; Part 5: Psychiatric Nursing. Content is evidence-based with supporting articles highlighted in actual entries and procedure guidelines. Official Guidelines that shape practice are incorporated in to the content and include those from the National Institutes of Health, American Diabetes Association, American Heart Association, American Nurses Association, Joint Commission, AWHONN, and others. A companion Website includes full text, an image bank, and drug-related NCLEX®-style questions, FDA

updates, and new clinical studies.

Part of the popular LPN Threads series, this comprehensive text includes in-depth discussions of fundamental concepts and skills, plus medical-surgical content to help you provide safe and effective care in the fast-paced healthcare environment. Easy-to-read content, an enhanced focus on preparing for the NCLEX® Examination, and a wealth of tips and study tools make Foundations and Adult Health Nursing, 6th Edition, your must-have text!

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. The NCLEX-RN Practice Questions Exam Cram , Fifth Edition provides 1250 questions for the nursing student who wants to be better prepared for the exam. Updated to provide more relevant and challenging questions matching NCLEX adjustments made in 2015, this fifth edition improves upon the prior editions that have served as one of the most popular late-stage study tools for Nursing candidates. Anxiety about the exam is high among nursing students and results from the focus group say 'the more practice questions to study, the better!' The Exam Cram questions cover every topic the student will encounter on the real exam including more "new format" interactive questions. The Exam Cram gives the student as much experience with the real exam as possible. The NCLEX-PN Practice Questions Exam Cram , Fifth Edition offers a cram sheet for last minute study as well as the CD testing engine for that testing experience, a proven combination for exam success!

This title includes additional digital media when purchased in print format. For this digital book edition, media content is not included.

Take your understanding to a whole new level with Pageburst digital books on VitalSource! Easy-to-use, interactive features let you make highlights, share notes, run instant topic searches, and so much more. Best of all, with Pageburst, you get flexible online, offline, and mobile access to all your digital books. The clear, concise, and cutting-edge medical-surgical nursing content in Medical-Surgical Nursing: Concepts & Practice, 2nd Edition provides the solid foundation you need to pass the NCLEX Examination and succeed as a new nurse. It builds on the fundamentals of nursing and covers roles, settings, health care trends, all body systems and their disorders, emergency and disaster management, and mental health nursing. Written by noted authors Susan deWit and Candice Kumagai, Medical-Surgical Nursing reflects current national LPN/LVN standards with its emphasis on safety as well as complementary and alternative therapies. UNIQUE! LPN Threads share learning features with Elsevier's other LPN textbooks, providing a consistency across the Elsevier LPN curriculum. Key Terms include phonetic pronunciations and text page references. Key Points are located at the end of chapters and summarize chapter highlights. Overview of Anatomy and Physiology at the beginning of each body system chapter provides basic information for understanding the body system and its disorders. Nursing Process provides a consistent framework for disorders chapters. Evidence-Based Practice is highlighted with special icons indicating current research. Assignment Considerations boxes address situations in which the charge nurse delegates to the LPN/LVN or the LPN/LVN assigns tasks to unlicensed assistive personnel. Focused Assessment boxes include information on history taking and psychosocial assessment, physical assessment, and guidance on how to collect data/information for specific disorders. Elder Care Points boxes address the unique medical-surgical care issues that affect older adults. Legal and Ethical Considerations boxes focus on specific disorder-related issues. Safety Alert boxes highlight specific dangers to patients related to medications and clinical care. Clinical Cues provide guidance and advice related to the application of nursing care. Think Critically About boxes encourage you to synthesize information and apply concepts beyond the scope of the chapter. Concept Maps in the disorders chapters help you visualize difficult material and illustrate how a disorder's multiple symptoms, treatments, and side effects relate to each other. Health Promotion boxes address wellness

and disease prevention, including diet, infection control, and more. Complementary and Alternative Therapies boxes offer information on how nontraditional treatments for medical-surgical conditions may be used to complement traditional treatment. Cultural Considerations promote understanding and sensitivity to various ethnic groups. Nutrition Considerations address the need for holistic care and reflect the increased focus on nutrition in the NCLEX Examination. Patient Teaching boxes provide step-by-step instructions and guidelines for post-hospital care. Home Care Considerations boxes focus on post-discharge adaptations of medical-surgical nursing care to the home environment. Mental Health Nursing unit includes information on disorders of anxiety and mood, eating disorders, cognitive disorders, thought and personality disorders, and substance abuse. Disaster Management content includes material focusing on preparation and mitigation to avoid losses and reduce the risk of injury associated with both natural and bioterrorist disasters. Nursing Care Plans with Critical Thinking Questions show how a care plan is developed and how to evaluate care of a patient. Review questions for the NCLEX-PN Examination at the end of each chapter include alternate-item format questions and help prepare you for class tests and the NCLEX exam. Critical Thinking Activities at the end of chapters include clinical situations and relevant questions, allowing you to hone your critical thinking skills. UNIQUE! Best Practices are highlighted to show the latest evidence-based research related to interventions. Online resources listed at the end of each chapter promote comprehensive patient care based on current national standards and evidence-based practices. UNIQUE! Icons in page margins point to related animations, video clips, additional content, and related resources on the Evolve site.

Take your understanding to a whole new level with Pageburst digital books on VitalSource! Easy-to-use, interactive features let you make highlights, share notes, run instant topic searches, and so much more. Best of all, with Pageburst, you get flexible online, offline, and mobile access to all your digital books. An essential resource for any nursing student, this invaluable guide gives you the tools you need to overcome test anxiety and develop effective study habits. Key topics include time management, critical thinking, and problem solving, with tips to help you tackle any nursing test — from a routine quiz to the NCLEX® examination. You'll learn how to confidently evaluate and identify the correct answer for a variety of test question types, including alternate item formats, with chapters on the nursing process, prioritization methods, and safety strategies. The book and companion CD offer 500 practice questions to help you practice the skills you are learning and gain realistic test-taking experience. Coverage of detailed critical thinking methods offer valuable clues to help you analyze and uncover the correct answer option for all question types, including multiple-choice, true-or-false, and alternate item-format questions. Chapters on specific question content, such as prioritization, pharmacology, management, and delegation, provide numerous examples to prepare you for higher cognitive level questions. A fun, two-color design features cartoons and bold designs to help visual learners become better overall test-takers. Linda Silvestri's hallmark Pyramid Points in the margins highlight the most important concepts you need to learn for exam success. A companion CD includes 500 practice questions that allow you to apply the strategies learned from the text in a realistic electronic testing environment. Refocused content emphasizes comprehensive test preparation to help you develop, refine, and apply the reasoning skills you need to succeed throughout nursing school and on the NCLEX® examination. A new chapter on reducing test anxiety offers simple strategies you can use to control test-induced stress and gain the confidence you need to pass exams. A new chapter on developing a structured study plan provides helpful tips for improving time management for more efficient exam preparation.

Based on student feedback, Saunders Q&A Review for the NCLEX-PN® Examination is organized to address specific Client Needs and Integrated Processes to mirror the NCLEX-PN test plan. This review follows Silvestri Comprehensive Review as the natural next step for students in the Silvestri suite of products. It contains 3,200 practice questions—including Alternate Item Format—that include comprehensive

rationales for both correct and incorrect options, test-taking strategies, and a textbook page reference for further explanation. This title includes additional digital media when purchased in print format. For this digital book edition, media content may not be included. Remediation tied directly back to your Elsevier textbooks provides resources for further study. Content is organized according to Client Needs, providing an organized review for exam preparation and end-of-course or exit standardized exams. Practice questions, answers, and detailed rationales all appear on the same page, giving you immediate feedback on your responses. Detailed test-taking strategies for each question give you clues for analyzing and uncovering the correct answer option. Rationales are provided for both correct and incorrect options. Provides computerized testing practice in study, quiz, or exam modes, to allow you to choose from 21 different content categories and focus your study sessions. Each question is categorized by level of cognitive ability, Client Needs area, integrated process, and clinical content area to allow you multiple study and exam selections. Contains chapters on academic and nonacademic NCLEX-PN preparation, advice from a recent nursing graduate, and test-taking strategies that help you understand complicated exam questions. Comprehensive exam consists of 85 questions related to all content areas in the book and representative of the percentages identified in the NCLEX-PN test plan.

The clear, concise, and cutting-edge medical-surgical nursing content in *Medical-Surgical Nursing: Concepts & Practice, 2nd Edition* provides the solid foundation you need to pass the NCLEX Examination and succeed as a new nurse. It builds on the fundamentals of nursing and covers roles, settings, health care trends, all body systems and their disorders, emergency and disaster management, and mental health nursing. Written by noted authors Susan deWit and Candice Kumagai, *Medical-Surgical Nursing* reflects current national LPN/LVN standards with its emphasis on safety as well as complementary and alternative therapies.

Written by Gabby Koutoukidis and Kate Stainton, *Tabbner's Nursing Care: Theory and Practice 8th edition* provides students with the knowledge and skills they will require to ensure safe, quality care across a range of healthcare settings. Updated to reflect the current context and scope of practice for Enrolled Nurses in Australia and New Zealand, the text focuses on the delivery of person-centred care, critical thinking, quality clinical decision making and application of skills. Now in an easy to handle 2 Volume set the textbook is supported by a skills workbook and online resources to provide students with the information and tools to become competent, confident Enrolled Nurses. Key features All chapters aligned to current standards including the NMBA Decision Making Framework (2020), the Enrolled Nurse Standards for Practice (2016) and the National Safety & Quality Health Services Standards (2018) Clinical skills videos provide visual support for learners Supported by Essential Enrolled Nursing Skills Workbook 2nd edition An eBook included in all print purchases New to this edition Chapter 5 Nursing informatics and technology in healthcare focuses on competency in nursing informatics for beginning level practice, aligned to the National Nursing and Midwifery Digital Capability Framework 2020 An increased focus on cultural competence and safety Supported by Elsevier Adaptive Quizzing *Tabbner's Nursing Care 8th edition*

Medical-surgical Nursing: Unit 1. Foundations for medical-surgical nursing. 1. Introduction to medical-surgical nursing *Medical-surgical Nursing Patient-centered Collaborative Care* Elsevier Health Sciences

Clear and straightforward, *Understanding Pharmacology: Essentials for Medication Safety* helps you understand how drugs work and how to administer them safely. That means you won't have to resort to rote memorization of drug information to avoid making medication errors!

Written by noted educators M. Linda Workman, PhD, RN, FAAN, Linda A. LaCharity, PhD, RN, and Susan L. Kruchko, MS, RN,

Understanding Pharmacology clarifies difficult concepts and prepares you to handle today's new drugs and drug classes. It provides

complete preparation for licensure exams and for clinical practice. Clear, consistent chapter format facilitates learning: Objectives Key Terms with phonetic pronunciations and page references Review of Related Physiology and Pathophysiology Types of Drugs Prescribed, including how each works; dosages with intended responses, side effects, and adverse effects; what to do before administering; what to check after administering; and what to teach patients Get Ready for Practice! with Key Points, Additional Learning Resources, Review Questions, and Critical Thinking Activities Animations and video clips are included on the companion Evolve website. Everyday terminologies is used, with technical terms following in parentheses. A math and dosage calculation review minimizes "math anxiety" and promotes medication safety. Try This! boxes let students practice math and dosage calculation concepts as they learn them. Common Side Effects boxes use clever, easy-to-recognize icons to emphasize the side effects of drugs. Drug Alert!, Memory Joggers, Do-Not-Confuse, and Clinical Pitfall boxes highlight important tips for safe medication administration. Did You Know? boxes relate pharmacology content to everyday life. Wide margins provide plenty of room for note-taking. Examination-style review questions end each chapter, and include alternate item format questions. Part of the popular LPN Threads series, this comprehensive text includes all of the vital medical-surgical and anatomy and physiology content you need to know. From an introduction to A&P to discussions of disorders by body system and beyond, Adult Health Nursing, 6th Edition, is an indispensable reference. Companion CD includes animations and audio clips depicting physiologic processes, physical assessment video clips, an English/Spanish glossary with definitions and audio pronunciations, an anatomy coloring book, and a fluid and electrolytes tutorial. Chapters begin with an overview of anatomy and physiology, providing a clear, basic understanding of A&P that LPN/LVNs need to know. The consistent, logical framework of the nursing process connects specific disorders to patient care. Safety Alert boxes help you implement The Joint Commission's safety guidelines in all settings, with considerations for special populations. Nursing Diagnosis boxes, screened and highlighted in the text, include nursing diagnoses for specific disorders paired with the appropriate nursing interventions. Skills in a step-by-step format with full-color illustrations present clearly defined nursing actions with rationales for the skills and techniques you'll use in practice. Medication tables are meticulously detailed and provide quick access to action, dosage, precautions, and nursing considerations for commonly used drugs. Nursing Care Plans, presented in a case-study format, emphasize patient goals and outcomes and end with Critical Thinking Questions to develop your clinical decision-making skills. An emphasis on communication features real-life examples of nurse-patient dialogue and illustrates practical guidelines for effective communication. Patient Teaching boxes and Family Teaching boxes include post-hospital discharge guidelines and disease prevention instructions with a strong focus on three-way communication among the nurse, patient, and family members. Life Span Considerations for Older Adults boxes provide age-specific information for the care of the aging population, which is often the primary focus of the LPN/LVN nurse. Home Care Considerations boxes discuss the issues facing patients and caregivers in the home health care setting. Health Promotion boxes provide key information on staying healthy and preventing disease, with tips on wellness from Healthy People 2010. Cultural Considerations boxes discuss how to address the health needs of a culturally diverse patient population when planning care. Complementary and Alternative Therapy boxes includes disorder-specific therapies, precautions, and possible side effects of non-traditional treatments. Enhanced focus on the NCLEX® Examination offers end-of-chapter Get Ready for the NCLEX Examination! sections with key points for self-guided study and remediation and an extensive set of review questions for thorough self-assessment. Additional review questions on Evolve provide instant feedback with correct answer and rationale for even more test-taking practice. Evidence-Based Practice boxes summarize the latest research findings and highlight how they apply to LPN/LVN practice. Updated, vibrant full-color design highlights key information and enhances your understanding of important concepts.

A market-leading must-have and part of the LPN Threads series, *Success in Practical/Vocational Nursing, From Student to Leader*, 8th Edition provides you with everything you need to succeed in both nursing school and in a career in LPN/LVN nursing. With a strong emphasis on leadership, this clear, comprehensive new edition discusses the higher-level roles and responsibilities of an LPN/LVN leader, the skills necessary to become a successful LPN/LVN, and the future of the field. It is filled with opportunities for you to test your understanding as you read, as well as practice NCLEX review questions at the end of each chapter to prepare you for the NCLEX-PN® Examination. Collaborative Care boxes highlight challenges that occur in emerging community and continuing care workforce settings, and give you examples of leadership and management opportunities for LPN/LVNs in any health care setting you may find yourself. Critical Thinking boxes include activities that could be used in a flipped classroom experience, and provide you with critical thinking and problem solving opportunities throughout the chapter to enhance your understanding. Try This boxes provide students and instructors with clinical simulations or activities related to topics discussed in the text that can be utilized in simulation or role-play scenarios in class. Professional Pointers boxes give advice on nursing best practices in the professional arena during and after nursing school. Get Ready for the NCLEX® Examination! section at the end of the text contains key points, additional learning activities, and review questions for the NCLEX® Examination (including alternate format items in every chapter). Presents tips on taking the NCLEX-PN examination and information on applications, interviews, and the job search, including electronic resumes. Full-color design, cover, photos, and illustrations make this text visually appealing, pedagogically useful and easy to read. Numbered objectives open each chapter and provide a framework for content. Key points at the end of each chapter summarize chapter highlights and serve as an excellent review tool. Key terms with phonetic pronunciations are at the beginning of each chapter and in full color at first mention in the text, and assist you in improving and supplementing your terminology and language skills before you enter clinical practice. References and Suggested Readings lists are arranged by chapter at the end of the book to provide you with resources for further understanding of text concepts. NEW! Community Resources chapter covers tools and resources that you can find within your community to help you with learning, personal, and family needs that could interfere with success in school. NEW! Work Force Trends chapter discusses the most current issues, challenges, and concerns with the LPN/LVN workforce. NEW! Storytelling narratives at the beginning of each chapter use true stories to enhance learning and demonstrate the relevancy of key topics.

The bestselling LPN/LVN geriatric nursing textbook, *Basic Geriatric Nursing*, 5th Edition covers age-appropriate nursing interventions in a variety of health care settings. It includes the theories and concepts of aging, covers expected physiologic and psychosocial changes, and highlights delegation, coordinated care, end-of-life care, patient teaching, quality of life, safety, and home care. This edition is updated with the latest issues and trends in geriatric nursing, including changes to the health care system and demographics. Part of the popular LPN Threads series, Gloria Hoffman Wold's text provides a clear and compassionate introduction to geriatric care. Complete coverage of key topics includes baby boomers and the impact of their aging on the health care system, therapeutic communication, cultural considerations, spiritual influences, evidence-based practice in geriatric nursing, and elder abuse, restraints, and ethical and legal issues in end-of-life care. UNIQUE! Delegation, leadership, and management content is integrated throughout. Nursing Process sections provide a framework for the discussion of the nursing care of the elderly patient as related to specific disorders. UNIQUE! A FREE Study Guide in the back of the book reinforces understanding with scenario-based clinical activities and practice questions. UNIQUE! Nursing interventions are numbered and grouped according to health care setting (e.g., acute care, extended care, home care), in a patient-centered approach emphasizing the unique needs of the older adult. UNIQUE! Nursing Care Plans with critical thinking questions help in understanding how a care plan is

developed, how to evaluate care of a patient, and how to apply your knowledge to clinical scenarios. UNIQUE! Critical Thinking boxes help you to assimilate and synthesize information. Clinical Situation boxes present patient scenarios with lessons for appropriate nursing care and patient sensitivity. Coordinated Care boxes address such topics as restraints, elder abuse, and end-of-life care as related to responsibilities of nursing assistants and other health care workers who are supervised by LPN/LVNs. UNIQUE! Complementary and Alternative Therapies boxes address specific therapies commonly used by the geriatric population for health promotion and pain relief. Cultural Considerations boxes encourage culturally sensitive care of older adults. UNIQUE! Patient Teaching boxes highlight health promotion, disease prevention, and age-specific interventions. UNIQUE! LPN Threads make learning easier, featuring an appropriate reading level, key terms with phonetic pronunciations and text page references, chapter objectives, special features boxes, and full-color art, photographs, and design. This market-leading textbook offers an engaging format and clear writing style that make it easy to master the basic nursing concepts and skills you need to practice in a variety of care settings. Its nursing process framework, health promotion focus, emphasis on critical thinking, and thorough coverage of communication and patient teaching provide a strong foundation for your nursing education. Full-color illustrations, critical thinking exercises, and practical examples help you strengthen and apply your knowledge of essential nursing concepts. CD-ROM features virtual hospital setting with six unique patients, whose charts, lab data and medical administration records can be assessed and monitored; each lesson in workbook has a reading assignment from Ignatavicius & Workman, Medical-surgical nursing, 6th edition, Saunders, c2010.

The go-to clinical companion for medical-surgical nursing students! Clinical Companion for Ignatavicius, Workman, and Rebar's Medical-Surgical Nursing: Interprofessional Collaborative Care, 9th Edition, is an A-Z, easy-to-use guide to more than 250 common medical-surgical conditions and their management. Written in a reader-friendly, direct-address style, this convenient tool is perfect for helping you out on clinical days in school and in practice. This edition features a unique focus on the concepts and exemplars found in the Ignatavicius textbook, along with updated content throughout that cross-references to the main text. With a streamlined collaborative care format, complete with new QSEN highlights and a reorganized Concepts in Medical-Surgical Nursing section, it will quickly become your favorite bedside reference. A-Z synopses of more than 250 diseases and disorders, along with related collaborative care, serve as both a quick reference for clinical days and a study resource for diseases/disorders and related collaborative care. QSEN highlights each focus on one or more of the six core QSEN competencies (Patient-Centered Care, Teamwork & Collaboration, Evidence-Based Practice, Quality Improvement, Safety, and Informatics) to help you understand how to apply QSEN competencies for safe patient care. Quick reference thumb tabs appear along the edges of the pages to facilitate quick access to clinical information for just-in-time learning and reference at the bedside. NEW! Updated content matches the 9th edition of the Ignatavicius textbook for a reliably seamless reference and study experience. NEW and UNIQUE! Additional focus on concept exemplars reflects the new conceptual focus of the Ignatavicius textbook and includes cross-references to refer

you to relevant exemplar disorders. NEW and UNIQUE! A Concepts for Interprofessional Collaborative Care section (Part One) reflects the emphasis on nursing concepts in the Ignatavicius textbook and provides you with a quick reference to essential concepts needed for effective nursing practice. NEW and UNIQUE! Interprofessional focus added to remind you to coordinate care with other health professionals. NEW! Cross references to the Ignatavicius textbook point you to detailed coverage of each concept or disorder. UNIQUE! Consistent collaborative care format mirrors that of the Ignatavicius textbook to more effectively prepare you for clinical days. UNIQUE! Nursing Safety Priorities (Drug Alert, Critical Rescue, and Action Alert) reinforce critical safety measures at the bedside and mirror those in the Ignatavicius textbook.

This easy-to-read outline review follows the unique two-column Straight A's format that lets students choose how they study for NCLEX® and course exams. The interior column outlines key facts for in-depth review; the exterior column lists only the most crucial points for quickest review. Other features include NCLEX®-style questions at the beginning and end of each chapter; lists of top items to study before a test; Time-Out for Teaching patient-teaching points; Go with the Flow algorithms; and critical information highlighted in a second color. A bound-in CD-ROM contains hundreds of NCLEX®-style questions—including alternate-item format questions—with answers and rationales.

Lippincott Manual of Medical-Surgical Nursing Adaptation of Netina: Lippincott Manual of Nursing Practice, 10/Suresh K. Sharma This book is south Asian adaptation of Netina: Lippincott Manual of Nursing Practice, 10/e. Customized as per the General Nursing Midwifery curriculum prescribed by Indian nursing council (INC). It not only provides but establishes authentic content of international standard but also caters to the specific curriculum requirement of nursing student of India.

Gain the knowledge and skills you need to effectively care for adult patients. Medical-Surgical Nursing, 7th Edition covers both medical-surgical and psychiatric mental health conditions and disorders while building on the fundamentals of nursing. This essential text focuses on nursing roles, settings, trends, body systems and their disorders, and emergency and disaster management. Unique to this edition is the gerontologic nursing unit which addresses physiologic and psychosocial changes in the older adult, along with related disorders common to the elder patient - the primary patient group population you'll encounter in practice. It also emphasizes culturally competent care and holistic nursing, while thoroughly covering all relevant NCLEX-PN® test plan content. With updated guidelines on diabetes, heart failure, asthma, COPD, and cancer treatment protocols, no other resource offers the breadth of topics at a level that is so perfectly tailored to the LPN/LVN student. UNIQUE! Gerontologic nursing unit covers physiologic and psychosocial changes in the older adult, along with related disorders common to the elder patient, the primary patient group for whom

LPNs provide care. UNIQUE! In-depth pharmacology coverage includes: the Pharmacology Tutorial covering drug classifications, how drugs work, and nursing responsibilities; Pharmacology Capsules boxes providing medication information, precautions for use, interactions, and side/adverse effects; and Pharmacology and Medications tables including classification, use/action, side/adverse effects, and nursing interventions. Nursing care plans reinforce the nursing process and focus on critical thinking. Get Ready for the NCLEX-PN® Examination! sections at the end of chapters include key points, review questions, and case studies that address the various NCLEX® Client Needs categories. Coordinated Care boxes highlight team approach to patient care, helping you to prioritize tasks and assign them safely to assistive personnel. Patient Teaching Plans provide bulleted lists of nursing instructions for patients, stressing the role and responsibility of the LPN/LVN to reinforce patient education. Health Promotion Considerations boxes highlight timely wellness and disease prevention topics. Cultural Considerations boxes discuss the importance of providing culturally competent care related to various clinical situations. Put on Your Thinking Cap boxes allow you to pause and consider the practical implications of what you have just read. Nutritional Considerations boxes are spotlighted at appropriate points throughout the text to emphasize the role that nutrition plays in disease and nursing care. Complementary and Alternative Therapies focus on nontraditional therapies along with precautions and possible side effects. Key terms with phonetic pronunciations help improve terminology and language skills of English-as-a-Second-Language (ESL) students and students with limited proficiency in English before they enter clinical practice. Succeed with topical reviews, practice exams, and preparation tools “The book offers a quick ‘cram’ approach to the NCLEX that is user friendly and not time intensive. The overall approach is learner-centered and the content is well paced.” —Catherine Dearman, RN, PhD Covers exactly what you need to know to score higher on your NCLEX-PN® exam. Includes 400 sample test questions to help you determine whether you’re ready to take the actual exam. Our popular Cram Sheet tearcard helps you remember key concepts. Exam Alerts provide important information found on the exam. Simplifies pharmacology for easy learning. Written by Leading Nursing Experts! Wilda Rinehart has R.N., B.S.N., M.S.N., F.N.C., and F.P.N.P. degrees. Her experience includes staff nurse in surgery, labor and delivery; public-health nurse; and family-planning nurse practitioner. She also was an instructor of surgical and obstetrical nursing. Diann Sloan has R.N., B.S.N., M.S.N., F.N.C., as well as MS. Ed. and Ph.D. in Education degrees. She has worked as a staff nurse in surgical nursing, pediatrics, and neonatal intensive care and as a pediatric nurse clinician. She has also been an instructor of pediatric and psychiatric nursing. Clara Hurd has M.S.N., R.N., and C.N.E. degrees. She has worked with Pearson as a consultant on item writing. She has 31 years of experience and has worked as a staff nurse in medical-surgical nursing and the surgical intensive care unit. Ms. Hurd has taught in associate and baccalaureate nursing

programs. Category: Test Preparation and Review Covers: Nursing NCLEX-PN® is a registered trademark of the National Council of State Boards of Nursing, Inc. (NCSBN), which does not sponsor or endorse this product.
