THE NEW YORK TIMES BESTSELLER that first revealed the Russia connection The culmination of nearly 30 years of reporting on Donald Trump, this in-depth report by Pulitzer Prize-winning investigative reporter David Cay Johnston takes a revealingly close look at the mogul's rise to prominence --- and, now, ultimate power Covering the long arc of Trump's career, Johnston tells the full story of how a boy from a quiet section of Queens, NY would become an entirely new, and complex, breed of public figure. Trump is a man of great media savvy, entrepreneurial spirit, and political clout. Yet his career has been plagued by legal troubles and mounting controversy. From the origins of his family's fortune, to his own too-big-to-fail business empire; from his education and early career, to his whirlwind and ultimately successful presidential bid, *The Making of Donald Trump* provides the fullest picture yet of Trump's extraordinary ascendancy. Love him or hate him, Trump's massive influence is undeniable, and figures as diverse as Woody Guthrie (who wrote a scathing song about Trump's father) and Red Scare prosecutor Roy Cohn, mob bosses and high rollers, as well as the average American voter, have all been pulled into his orbit. Drawing on decades of interviews, financial records, court documents, and public statements, David Cay Johnston, who has covered Trump longer and more closely than any other journalist working today, gives us the most in-depth look yet at the man who has shocked the world. "Provides useful, vigorously reported overviews of Mr. Trump's life and career ... Mr. Johnston, who has followed the real estate impresario for nearly three decades, offers a searing indictment of his business practices and creative accounting."—Michiko Kakutani, *The New York Times* "David

This volume presents six new studies on current topics in taxation and government spending. The first study looks at the costs of income tax filing, which have risen over time because of the numerous tax forms families have to fill out when filing their taxes and because of increased costs of itemizing deductions, and explores ways to simplify filing and reduce those costs. The second study investigates the design of income tax schedules when there is uncertainty about the way taxation affects household

behavior. The third study provides new and comprehensive estimates of the impact of the US Earned Income Tax Credit on the employment of low-income men and women, finding that the large majority of the various expansions of that credit over the last forty years have increased employment of single mothers. The fourth study reviews the structure of business taxation in China and describes a number of tax distortions and potential inefficiencies in the system. The next paper considers how the Affordable Care Act has affected the health insurance and labor market choices of individuals who are between the ages of 60 and 64, and it finds increases in insurance coverage and reductions in employment for some groups. The last study considers how reimbursement rates for health care providers under various government insurance programs affect providers' willingness to take on new patients and expand their patient capacity.
