

## The Mystery Of Prophetic Paternity By Sam Bishops Oroge

Translated by Michelle K. Borrás The idea of love pervades our society, yet it is nearly impossible to answer the question What is love? especially as we witness the divorce of love from sexuality and of sexuality from procreation. Aware that many people today are skeptical about marriage, Angelo Cardinal Scola nevertheless suggests that only in the category of nuptial mystery do we find a way to adequately describe the phenomenon of love. A bright new leader in the Catholic Church, Cardinal Scola argues that the male-female relationship lies near the heart of what it means to bear the image of God. Scola's book explores the essential sexual differences that both separate and unite men and women, and it shows how men and women can realize their purpose in marriage or celibacy. Conversant with papal teaching and Catholic writers from Aquinas to von Balthasar, Cardinal Scola writes with a deep regard for marriage and the family. His Nuptial Mystery will leave readers with a thoroughly Christian appreciation for incarnate love.

The truly charismatic monk flees any honour as fire, knowing that it will extinguish the flame of love for God burning in his heart and stop the current of the divine will from flowing through him and guiding him. He would rather do everything to remain hidden from the eyes of this world so as not to be seen by men, but to be under the gaze of God's eyes alone, 'who seeth in secret and rewardeth openly.' Neither does he seek consolation or support from this world but puts his only hope in the Lord, 'which hope he has as an anchor of his soul', leading him into that which is 'within the veil.' Widespread disagreements about matters of right and wrong have led many philosophers and non-philosophers to conclude that moral knowledge is impossible. Nevertheless, we all make moral pronouncement every day. In this book, Mary Gore Forrester considers the nature of the language we use in ordinary life to make those moral evaluations, what that language indicates about the criteria we use for making such evaluations, and the conditions for determining the truth or falsity of moral evaluations. Specialists in ordinary language philosophy will enjoy Forrester's arguments to the effect that the descriptivist's position on moral language is correct and that non-descriptivist positions on the matter can be disproved.

2008 Catholic Press Association Award Winner! In this volume of weekly reflections on the Sunday Lectionary for Year A, Verna Holyhead calls us not only to hear the Word of God, but to act on that Word. Her reflections shed light on what it means to be human, to be people of God, in today's world. Using Scripture, poetry, and history, these meditations move readers beyond a static understanding of the weekly readings to an appreciation for how the readings impact and reflect their lives. Drawing on the Rule of St. Benedict and the Benedictine tradition, the reflections provide another way by which believers may contemplate the Liturgy of the Word. As a sourcebook for pastoral ministry or a reference for personal or communal reflection, this volume will assist believers who desire to engage more deeply with the Word. Verna Holyhead. SGS, is an Australian Sister of the Good Samaritan of the Order of St. Benedict. She leads retreats, lectures, and writes, with an emphasis on biblical scholarship, liturgical insight, and pastoral challenge.

Too many great destinies get caged in and locked up; mighty potentials, useful for kingdom's building remain bottled up in individuals who do not know how to connect with the agents that have been divinely designed to make them shine. This masterpiece reveals God's wealth of wisdom in turning minors to major. There's no theology against the Prophetic Paternity; it is real. And it is time to rise to fatherhood; father or be fathered. Open your heart to revelations (in this book) take relevant actions and see your life and ministry leap into the next level. The mystery of the Trinity is the central Christian belief that defines God's essence, God's ongoing love for humanity, and saving grace. Yet, over the past few centuries, especially in the West, Christians have either ceased believing in the Trinity or simply no longer recognize its relevance in their ecclesial or individual lives. Written in an ecumenical spirit that engages contemporary questions and theological viewpoints, The Trinity: Rediscovering the Central Christian Mystery articulates the mystery of the Trinity for people formed by modern historical consciousness, science, awareness of the equal dignity of men and women, and respect for world religions. By first identifying contemporary problems with the Christian proclamation of the Trinity in our culture and major differences among modern theologians, John Farrelly, OSB, explores Scripture, the life and message of Jesus Christ, the various stages of the development of Trinitarian doctrine in Christian History, the relation of the Trinity to creation and salvation, the generation of the Son from the Father within the Trinity and the procession of the Holy Spirit from Father and Son, and the meaning of three persons in one God. He concludes by reflecting on the implications this renewed theology of the Trinity has for ecclesiology and Christian spirituality in our twenty-first century world, especially in relation to other world religions.

Emmanuel Levinas (1906-1995) emerged as an influential philosophical voice in the final decades of the twentieth century, and his reputation has continued to flourish and increase in our own day. His central themes--the primacy of the

ethical and the core of ethics as our responsibility to and for others--speak to readers from a host of disciplines and perspectives. However, his writings and thought are challenging and difficult. The Oxford Handbook of Levinas contains essays that aim to clarify and engage Levinas and his writings in a number of ways. Some focus on central themes of his work, others on the ways in which he read and was influenced by figures from Plato, Hobbes, Descartes, and Kant to Blanchot, Husserl, Heidegger, and Derrida. And there are essays on how his thinking has been appropriated in moral and political thought, psychology, film criticism, and more, and on the relation between his thinking and religious themes and traditions. Finally, several essays deal primarily with how readers have criticized him and found him wanting. The volume exposes and explores both the depth of Levinas's philosophical work and the range of applications to which it has been put, with special attention to clarifying why his interests in the human condition, the crisis of civilization, the centrality and character of ethics and morality, and the very meaning of human experience should be of interest to the widest range of readers.

The Reader's Guide to Women's Studies is a searching and analytical description of the most prominent and influential works written in the now universal field of women's studies. Some 200 scholars have contributed to the project which adopts a multi-layered approach allowing for comprehensive treatment of its subject matter. Entries range from very broad themes such as "Health: General Works" to entries on specific individuals or more focused topics such as "Doctors."

In his 2009 post-synodal apostolic exhortation *Verbum Domini*, Pope Benedict XVI pointed out that "theological reflection has always considered inspiration and truth as two key concepts for an ecclesial hermeneutic of the sacred Scriptures" and that there is today the need "for a fuller and more adequate study of these realities, in order to better respond to the need of interpreting the sacred texts in accordance with their nature." *The Inspiration and Truth of Sacred Scripture: The Word That Comes from God and Speaks of God for the Salvation of the World* is the contribution of the Pontifical Biblical Commission toward a more adequate understanding of the concepts of inspiration and truth that respects both the nature of the Bible and its significance for the life of the Church. Drawing on a close reading of the Scriptures themselves, the document focuses on three main aspects: 1. The inspiration of Sacred Scripture and the exploration of its divine provenance 2. The truth of the Word of God, emphasizing the message about God and his project of salvation 3. Challenges that arise from the Bible itself, on account of certain aspects that seem inconsistent with its quality of being the Word of God Reading this document, formally approved by Pope Francis, will strengthen the reader to receive the word of God—in the liturgical assembly and in every other place—in its theological, Christological, soteriological, and ecclesiological context in a way that corresponds ever more closely to this unique gift of God whereby God communicates his very self and invites us into communion with him.

After isolating and defining the ways in which three of the early works --\$ *Typee*, *Redburn*, and \$ *White Jacket* --contributed to Melville's progress toward an idea of transcendence, Sherrill assesses the genesis, emergence, and shape of this idea as it is articulated more fully in \$ *Moby-Dick*, and then moves to \$ *Pierre* and \$ *Billy Budd* to see how the idea became a controlling factor in Melville's mature vision of life. This study stands as an interpretive alternative to critical accounts of Melville's quarrel with "God".

Neither simple apostate nor obedient Christian, James Joyce developed a uniquely ambivalent attitude toward his Irish Catholic roots—one that became inscribed in his imagination and served as a constant aesthetic focus and symbolic source in his fiction. In this study, Beryl Schlossman traces the theological and liturgical echoes that resonate in Joyce's work, particularly in *Ulysses* and *Finnegans Wake*, and argues that the writer's special brand of Catholicism necessitates a double reading of the fiction. Confronting the Catholic Word with Celtic wit, she suggests, Joyce's world is an interrelated blend of the sacred and the comic, the deeply religious and the obscene, the defiant, the blasphemous. Students, scholars, and readers of Joyce, modern or comparative literature, contemporary criticism, and theology will find this a comprehensive and convincing study that illuminates the themes, poetic language, and central paradox of Joyce's art.

After identifying its anthropological origins in ancient rituals performed by a shaman or wizard, this text traces the development of the Magus through pre-Christian religious and mystic philosophers, medieval sorcerers and alchemists and the 18th and 19th century occult revival.

Marked by growing freedom and equality, today's families are also dogged by brokenness and loss of faith. And while the theology of marriage has developed remarkably under the impetus of the Second Vatican Council and Pope John Paul II, the theology of the family remains in its infancy, only beginning to meet the challenges of contemporary society. In *Divine Likeness* Marc Cardinal Ouellet points the way to a much-needed theology of the family grounded in the doctrine of the Trinity. Cardinal Ouellet understands family life to be a sacrament of Trinitarian communion, a crucial source for revealing and inspiring a new sense of God's presence in the faith community. This book will help theologians, pastors, and believers to develop fruitfully the legacy of Pope John Paul II, carrying forward the quest to let the Trinity and the family illuminate each other for the good of today's world. *The Theology of the Body* contains talks given by John Paul II in which he discusses the bodily dimension of human personhood, sexuality, and marriage in the light of biblical revelation.

But in the musical drama reality begins to blur, the musical forms lose their excessively neat patterns, and doubt and ambiguity undermine characters and situations, reflecting the crisis of character typical of modernity. Indeed, much of the interest and originality of Verdi's operas lie in his adherence to both these contradictory systems, allowing the composer/dramatist to be simultaneously classical and modern, traditionalist and innovator.

Starting from the assumption that 'time is the horizon of the meaning of Being' (Heidegger), *Eternal God/ Saving Time* attempts to discover what the central religious idea of eternity or of God as 'the Eternal' might mean today. Negotiating

ideas of divine timelessness and sempiternity (everlastingness) as well as the attempts of some philosophers to develop the idea of a temporal God, Professor George Pattison surveys a range of positions from analytic philosophy and from the continental tradition from Spinoza through Hegel to the present. Intellectual and cultural forces have tended to separate time and eternity, and both philosophical and theological examples of this tendency are examined. Nevertheless, starting from the experience of life in time, some modern thinkers have developed a new approach to the Eternal as what grounds or gives time. This leads through ideas of novelty, utopia, hope, promise, and call to the projection of a creative and transformative memory-remembering the future-that affirms human solidarity and mutual responsibility. Even if this cannot be made good in terms of knowledge, it offers a basis for hope, prayer, and commitment and these options are explored through a range of Christian, Jewish, Greek, and secular thinkers. This development re-envisages the idea of redemption, away from the Augustinian view that time is what we need to be rescued from and towards the idea that time itself might save us from all that is destructive and tyrannical in time's rule over human life.

What is the essence of a human being seen through the prisms of spirituality, psychology, sociology, and love, and also of sacred art? And seen also through those of leadership and justice, as well as of politics, and even crime, along with the roles of sexuality and marriage? This book defines man and woman in the context of both cosmology and society, but according to the guiding image of an archetypal human being, a holy creature fashioned in the image of God. Perry also examines what the distortion of this archetype entails, but the better to highlight the excellence of man's divine kingship. The fantasy of a sculpture that moves, speaks or responds, a statue that comes to life as an oracle, lover, avenger, mocker, or monster—few images are more familiar or seductive. The living statue appears in ancient creation narratives, the myths of Pygmalion and Don Juan, lyric poetry from the Greek Anthology to Rilke, and romantic fairy tales; it is a recurrent theme in ballet and opera, in philosophy, psychoanalysis, and film. What does it mean for the statue that stands immobile in gallery or square to step down from its pedestal or speak out of its silence? What is it in this fantasy that animates us? Kenneth Gross explores the implications of fictive statues in biblical and romantic narrative; in the poetry of Ovid, Michelangelo, Blake, Rilke, and Stevens; in the drama of Shakespeare; in the writings of Freud and Wittgenstein. He also considers their place in the poetry of such contemporaries as Richard Howard and the films of Charlie Chaplin, François Truffaut, and Peter Greenaway. In the motif of the moving statue, we can see how the reciprocal ambitions of writing and sculpture play off each other, often producing deeply paradoxical figures of life and voice. Stories of the living statue point to the uncertain ways in which our desires, fantasies, and memories are bound to the realm of unliving objects. Clarifying the sources of our fascination with real and imaginary statues, this book asks us to reconsider some of our most basic assumptions about the uses of fantasy and fiction. Eloquent and evocative, *The Dream of the Moving Statue* will capture and hold a wide audience.

This volume discusses various conceptions of family and kinship in the context of deuterocanonical literature. After analyzing the topic family in a narrow sense of the term, the articles investigate general ideas of morality, respect, or love and take a critical look at representations of gender, power, and social norms in Judaism and Early Christianity. It would be practically impossible to understand this monumental transition from the Roman world to Christendom without taking into account the pivotal role played by Leo the Great. In this regard, his sermons provide invaluable data for the social historian. It was Leo--and not the emperor--who went out to confront Attila the Hun. It was Leo who once averted and on another occasion mitigated the ravages of barbarian incursions. As significant as his contribution was to history, Leo had an even greater impact on theology.

The French Revolution--that extraordinary event that founded modern democracy--continues to provoke a reevaluation of essential questions. This volume presents the research of a wide range of international scholars into those questions. 58 color illustrations, 10 halftones.

This book ... aims to show how one particularly celebrated saga 'works' as a story: the Middle Irish tale *Togail Bruidne Da Derga* (The Destruction of Da Derga's Hostel), which James Carney called 'the finest saga of the early period'. This book invites the reader to enjoy and understand this literary masterpiece, explaining its narrative artistry within its native, classical and biblical literary contexts. Against a historical backdrop of shifting ideologies of Christian kingship, it interprets the saga's possible significance for contemporary audiences as a questioning exploration of the challenges and paradoxes of kingship.

Distinctive in form, content and style, the epistle to the Hebrews offers a profound high Christology and makes an awe-inspiring contribution to our understanding of Jesus as our High Priest. The earliest extant commentary on the letter comes to us in thirty-four homilies from John Chrysostom. These homilies serve to anchor the excerpts chosen by the editors of this volume because of their unique place in the history of interpretation. In addition to being the first comprehensive commentary on the letter, they deeply influenced subsequent interpretation in both the East and the West, and their rhetorical eloquence has long been acknowledged. As in other Ancient Christian Commentary volumes, the excerpts chosen range widely over geography and time from Justin Martyr and Clement of Rome in the late first and early second century to The Venerable Bede, Isaac of Nineveh, Photius and John of Damascus in the eighth and ninth centuries. The Alexandrian tradition is well represented in Clement of Alexandria, Origen, Athanasius, Didymus and Cyril of Alexandria, while the Antiochene tradition is represented in Ephrem the Syrian, Theodore of Mopsuestia, Severian of Gabala and Theodoret of Cyr. Italy and North Africa in the West are represented by Ambrose, Cassiodorus and Augustine, while Constantinople, Asia Minor and Jerusalem in the East are represented by the Great Cappadocians--Basil the Great, Gregory of Nazianzus and Gregory of Nyssa--Eusebius, Cyril of Jerusalem and Jerome. Edited by Erik M. Heen and Philip D. W. Krey, this volume offers a rich treasure of ancient wisdom from Hebrews for the enrichment of the church today.
