Accident Book BI 510

Gifty is een briljante studente neurowetenschap aan de universiteit van Stanford. Haar drijfveer is de fatale overdosis van haar broer, verslaafd aan pijnstillers, en de depressie van haar moeder. Gifty is vastberaden om de wetenschappelijke oorzaak te vinden van al het verdriet en lijden dat haar leven domineert. Dan zet een telefoontje haar eenzaam leven in haar laboratorium volledig op zijn kop. Haar moeder wil zelfmoord plegen en ten einde raad neemt Gifty haar in huis. Het brengt haar weer terug naar het geloof dat zoveel houvast gaf in haar jeugd. De kerk waar ze in opgroeide beloofde verlossing, maar gaf nooit duidelijkheid hoe die te bereiken. Terwijl haar moeder in bed blijft liggen worstelt Gifty tussen geloof en wetenschap, en zoekt naar een manier om haar liefde voor haar familie in daden om te zetten. Verheven koninkrijk is een ontroerend portret van een Ghanees immigrantengezin in de VS dat zucht onder het juk van verdriet, depressie en verslaving. Het is een wonderschoon geschreven en emotioneel zeer beladen opvolger van het fenomenale Weg naar huis, en is de meesterproef van het literaire talent Yaa Gyasi.

De cynische Saoirse (17) gelooft niet meer in de liefde. Ze is vastbesloten om nooit meer aan een serieuze relatie te beginnen. Tot ze op een eindexamenfeestje Ruby ontmoet. Die daagt haar uit tot een experiment: een zomer vol klassieke dates die zo in een romantische comedy zouden passen, en die eindigt zodra vakantie voorbij is – geen verwachtingen van eeuwige liefde, geen gebroken harten, geen gezeur. Klinkt als een perfect plan, maar Ruby en Saoirse vergeten één ding: aan het einde worden de personages in de film altijd écht verliefd.

Risk assessment is the key to successful management of health and safety at work. Risk assessments are carried out in order to quantify and evaluate the significance of workplace hazards so that appropriate control measures can be put in place. Usually, a written record of the assessment is required, detailing the following information: \* The hazards – and how much risk is associated. \* The risk – with appropriate control measures. \* Deadlines – to follow-up the risk assessment to ensure the risk is managed. Failure to carry out risk assessments – punishable by law – is often due to lack of a suitable risk assessment system. Tolley's Risk Assessment Workbook – Utilities provides that system, both in the form of key background information on how to carry out a risk assessment – understanding relevant legislation and regulations – but most importantly by providing: \* Checklists – highlighting key industry-specific hazards and control measures. \* Questionnaires – highlighting key questions the risk assessor should ask when analysing the risk posed by the hazard. \* Action Plans – to ensure the risk assessment is followed up and completed. The Workbook offers a practical risk assessment system: it shows you how to comply with the law and gives you the foundations of a logical procedure that can be understood easily, put into place quickly where necessary and adapted to your organisation's needs. Tolley's Risk Assessment Workbooks is a series of practical Workbooks providing you with all the information you need to conduct risk assessments in industry-specific areas including: Manufacturing, Retail, Leisure, Education, Offices, and Construction. A special Risk Assessment Workbook on Stress has also been developed in order to facilitate management of this issue which is of key concern to all organisations. Ze kon Rhett terugwinnen. Hun gepassioneerde romance, die wereldwijd al miljoenen lezers wist mee te slepen, speelt zich af tegen de achtergrond van de Amerikaanse burgeroorlog in het zuiden van de Verenigde Staten, een tijd waarin net als nu - bestaande zekerheden als positie en welvaart, superioriteit en hiërarchie wankelen. Gejaagd door de wind is het portret van de ultieme moderne vrouw, die meedogenloos nastreeft wat ze wil hebben, misgrijpt en weer opnieuw begint.
